Lying On The Couch - Irvin D. Yalom 2014-03-25

From the bestselling author of *Love's Executioner* and *When Nietzsche Wept* comes a provocative exploration of the unusual relationships three therapists form with their patients. Seymour is a therapist of the old school who blurs the boundary of sexual propriety with one of his clients. Marshal, who is haunted by his own obsessive-compulsive behaviors, is troubled by the role money plays in his dealings with his patients. Finally, there is Ernest Lash. Driven by his sincere desire to help and his faith in psychoanalysis, he invents a radically new approach to therapy -- a totally open and honest relationship with a patient that threatens to have devastating results. Exposing the many lies that are told on and off the psychoanalyst's couch, *Lying on the Couch* gives readers a tantalizing, almost illicit, glimpse at what their therapists might really be thinking during their sessions. Fascinating, engrossing and relentlessly intelligent, it ultimately moves readers with a denouement of surprising humanity and redemptive faith.

Rewire Your Anxious Brain - Catherine M Pittman 2015-01-02

Do you ever wonder what is happening inside your brain when you feel anxious, panicked, and worried? In *Rewire Your Anxious Brain*, psychologist Catherine Pittman and author Elizabeth Karle offer a unique, evidence-based solution to overcoming anxiety based in cutting-edge neuroscience and research. In the book, you will learn how the amygdala and cortex (both important parts of the brain) are essential players in the neuropsychology of anxiety. The amygdala acts as a primal response, and oftentimes, when this part of the brain processes fear, you may not even understand why you are afraid. By comparison, the cortex is the center of "worry." That is, obsessing, ruminating, and dwelling on things that may or may not happen. In the book, Pittman and Karle make it simple by offering specific examples of how to manage fear by tapping into both of these pathways in the brain. As you read, you'll gain a greater understanding how anxiety is created in the brain, and as a result, you will feel empowered and motivated to overcome it. The brain is a powerful tool, and the more you work to change the way you respond to fear, the more resilient you will become. Using the practical self-assessments and proven-effective techniques in this book, you will learn to literally "rewire" the brain processes that lie at the root of your fears.

A Raisin in the Sun - Lorraine Hansberry 2004-11-29

"Never before, in the entire history of the American theater, has so much of the truth of Black people's lives been seen on the stage," observed James Baldwin shortly before *A Raisin in the Sun* opened on Broadway in 1959. This edition presents the fully restored, uncut version of Hansberry's landmark work with an introduction by Robert Nemiroff. Lorraine Hansberry's award-winning drama about the hopes and aspirations of a struggling, working-class family living on the South Side of Chicago connected profoundly with the psyche of Black America—and changed American theater forever. The play's title comes from a line in Langston Hughes's poem "Harlem," which warns that a dream deferred might "dry up/like a raisin in the sun." "The events of every passing year add resonance to *A Raisin in the Sun*," said *The New York Times*. "It is as if history is conspiring to make the play a classic."

Staring at the Sun - Irvin D. Yalom 2010-06-10

Written in Irv Yalom's inimitable story-telling style, *Staring at the Sun* is a profoundly encouraging approach to the universal issue of mortality. In this magisterial opus, capping a lifetime of work and personal experience, Dr. Yalom helps us recognize that the fear of death is at the heart of much of our anxiety. Such recognition is often catalyzed by an "awakening experience"—a dream, or loss (the death of a loved one, divorce, loss of a job or home), illness, trauma, or aging. Once we confront our own mortality, Dr. Yalom writes, we are inspired to rearrange our priorities, communicate more deeply with those we love, appreciate more keenly the beauty of life, and increase our willingness to take the risks necessary for personal fulfillment.

The Beauty of What Remains - Steve Leder 2021-01-05

The national bestseller *From the author of the bestselling More Beautiful Than Before* comes an inspiring book about loss based on his most popular sermon. As the senior rabbi of one of the largest synagogues in the world, Steve Leder has learned over and over again the many ways death teaches us how to live and love more deeply by showing us not only what is gone but also the beauty of what remains. This inspiring and comforting book takes us on a journey through the experience of loss that is fundamental to everyone. Yet even after having sat beside thousands of deathbeds, Steve Leder the rabbi was not fully prepared for the loss of his own father. It was only then that Steve Leder the son truly learned how loss makes life beautiful by giving it meaning and touching us with love that we had not felt before. Enriched by Rabbi Leder's irreverence, vulnerability, and wicked sense of humor, this heartfelt narrative is filled with laughter and tears, the wisdom of millennia and modernity, and, most of all, an unfolding of the profound and simple truth that in loss we gain more than we ever imagined.

First published in 1946; now in translation by Matthew Ward.

The Shadow of the Sun - Ryszard Kapuscinski 2011-05-25

A moving portrait of Africa from Poland's most celebrated foreign correspondent - a masterpiece from a modern master. Famous for being in the wrong places at just the right times, Ryszard Kapuscinski arrived in Africa in 1957, at the beginning of the end of colonial rule - the "sometimes dramatic and painful, sometimes enjoyable and jubilant" rebirth of a continent. *The Shadow of the Sun* sums up the author's experiences ("the record of a 40-year marriage") in this place that became the central obsession of his remarkable career. From the hopeful years of independence through the bloody disintegration of places like Nigeria, Rwanda and Angola, Kapuscinski recounts great social and political changes through the prism of the ordinary African. He examines the rough-and-ready physical world and identifies the true geography of Africa: a little-understood spiritual universe, an African way of being. He looks also at Africa in the wake of two epoch-making changes: the arrival of AIDS and the definitive departure of the white man. Kapuscinski's rare humanity invests his subjects with a grandeur and a dignity unmatched by any other writer on the Third World, and his unique ability to discern the universal in the particular has never been more powerfully displayed than in this work.

Praised for its psychological insight and its intense and unprecedented realism in portraying the experience of men under fire, *The Red Badge of Courage* has been a beloved bestseller for more than a century.

I'm Calling the Police - Irvin D. Yalom 2011-03-01

"Something heavy is going on ... the past is erupting ... my two lives, night and day, are joining. I need to talk." Irv Yalom's old medical school friend was making a plea for help. In their fifty years of friendship, Bob Berger had never divulged his nocturnal terrors to his close comrade. Now, finally, he found himself forced to. In *I'm Calling the Police*, Berger recounts to Yalom the anguish of a war-torn past: By pretending he was a Christian, Berger survived the Holocaust. But after a life defined by expiation and repression, a dangerous encounter has jarred loose the painful memory of those years. Together, they interpret the fragments of the horrific past that haunt his dreams. *I'm Calling the Police* is a powerful exploration of Yalom's most vital themes--memory, fear, love, and healing--and a glimpse into the life of the man himself.

Existential Psychotherapy - Irvin D. Yalom 2020-03-17

The definitive account of existential psychotherapy. First published in 1980, *Existential Psychotherapy* is widely considered to be the foundational text in its field—the first to offer a methodology for helping patients to develop more adaptive responses to life's core existential dilemmas. In this seminal work, American psychiatrist Irvin Yalom finds the essence of existential psychotherapy and gives it a coherent structure, synthesizing its historical background, core tenets, and usefulness to the practice. Organized around what Yalom identifies as the four "ultimate concerns of life"—death, freedom, isolation, and meaninglessness—the book takes up the meaning of each existential concern and the type of conflict that springs from our confrontation with each. He shows how these concerns are manifest in personality and

psychopathology, and how treatment can be helped by our knowledge of them. Drawing from clinical experience, empirical research, philosophy, and great literature, Yalom provides an intellectual home base for those psychotherapists who have sensed the incompatibility of orthodox theories with their own clinical experience, and opens new doors for empirical research. The fundamental concerns of therapy and the central issues of human existence are woven together here as never before, with intellectual and clinical results that have surprised and enlightened generations of readers.

Sappho's Leap - Erica Jong 2013-10-08

The #1 New York Times–bestselling author of *Fear of Flying* brings the seductive Greek poet to life in this “enormously entertaining” tale (Booklist). As she stands poised at the edge of a precipice in the shadow of the sanctuary of Apollo, the greatest love poet who ever was or ever will be recalls the eventful fifty years that have led her to this moment. It was love that seduced her, at age sixteen, into an ill-fated plot with the poet Alcaeus to depose the despot of the island of Lesbos. It was love that made her trade the unwanted marriage bed of an old, despised, and drunken husband for a seemingly endless series of lovers, both male and female. For Sappho, life has always been a banquet to be savored to the fullest, a strange and sensual odyssey that has carried her to the far corners of the ancient world. Devoted to the goddess Aphrodite and granted the gift of immortal song, she has followed her magnificent destiny from Delphi to Egypt, to the land of the Amazons, the realm of the centaurs, and into the stygian depths of Hades itself, often in the company of her companion and friend, the fabulist slave Aesop. Through every grand affair and every wild adventure, she has remained forever true to her heart, her passion, and herself, right up to this, the end of everything. Combining evocative and realistic detail with unabashedly outrageous invention, Erica Jong's *Sappho's Leap* is a flawless gem of historical fiction boldly imagined by one of America's most enthralling storytellers. This ebook features an illustrated biography of Erica Jong including rare photos and never-before-seen documents from the author's personal collection.

Journey to Heaven - Leila Leah Bronner 2011-06-01

A number of the basic tenets of Jewish belief regarding the afterlife, resurrection, immortality, judgment, messianism, and the world to come are laid out in this fascinating and accessible volume. Beginning with the Bible's references to Sheol and its allusions to resurrection, this survey explores immortality and bodily resurrection in Second Temple literature; the Mishnah's discussions of *olam ha-ba*, or the world to come, and how to merit entry into it; and the Talmud's depictions of paradise and hell, and the soul's journey through these metaphysical landscapes. The book also explores the views of medieval scholars such as Maimonides and Nahmanides, Jewish mystical teachings about reincarnation, and modern views of faith and belief, as well as the evolving view of the Messiah over the course of Jewish history. This absorbing study demonstrates that the afterlife is indeed a vital part of Judaism as it reveals how generations of Jews, from biblical times to the present, have grappled with the core ideas and beliefs about the hereafter.

The Brain That Changes Itself - Norman Doidge 2007-03-15

“Fascinating. Doidge’s book is a remarkable and hopeful portrait of the endless adaptability of the human brain.”—Oliver Sacks, MD, author of *The Man Who Mistook His Wife for a Hat* What is neuroplasticity? Is it possible to change your brain? Norman Doidge’s inspiring guide to the new brain science explains all of this and more An astonishing new science called neuroplasticity is overthrowing the centuries-old notion that the human brain is immutable, and proving that it is, in fact, possible to change your brain. Psychoanalyst, Norman Doidge, M.D., traveled the country to meet both the brilliant scientists championing neuroplasticity, its healing powers, and the people whose lives they’ve transformed—people whose mental limitations, brain damage or brain trauma were seen as unalterable. We see a woman born with half a brain that rewired itself to work as a whole, blind people who learn to see, learning disorders cured, IQs raised, aging brains rejuvenated, stroke patients learning to speak, children with cerebral palsy learning to move with more grace, depression and anxiety disorders successfully treated, and lifelong character traits changed. Using these marvelous stories to probe mysteries of the body, emotion, love, sex, culture, and education, Dr. Doidge has written an immensely moving, inspiring book that will permanently alter the way we look at our brains, human nature, and human potential.

Every Day Gets a Little Closer - Irvin D. Yalom 2008-08-01

The many thousands of readers of the best-selling *Love's Executioner* will welcome this paperback edition of an earlier work by Dr. Irvin Yalom, written with Ginny Elkin, a pseudonymous patient whom he treated -- the first book to share the dual reflections of psychiatrist and patient. Ginny Elkin was a troubled young and talented writer whom the psychiatric world had labeled as "schizoid." After trying a variety of therapies, she entered into private treatment with Dr. Irvin Yalom at Stanford University. As part of their work together, they agreed to write separate journals of each of their sessions. *Every Day Gets a Little Closer* is the product of that arrangement, in which they alternately relate their descriptions and feelings about their therapeutic relationship.

Americans have built an empire on the idea of “race,” a falsehood that damages us all but

falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

Visions, Trips, and Crowded Rooms - David Kessler 2011-05-01

David Kessler, one of the most renowned experts on death and grief, takes on three uniquely shared experiences that challenge our ability to explain and fully understand the mystery of our final days. The first is "visions." As the dying lose sight of this world, some people appear to be looking into the world to come. The second shared experience is getting ready for a "trip." The phenomenon of preparing oneself for a journey isn't new or unusual. In fact, during our loved ones' last hours, they may often think of their impending death as a transition or journey. These trips may seem to us to be all about leaving, but for the dying, they may be more about arriving. Finally, the third phenomenon is "crowded rooms." The dying often talk about seeing a room full of people, as they

constantly repeat the word crowded. In truth, we never die alone. Just as loving hands greeted us when we were born, so will loving arms embrace us when we die. In the tapestry of life and death, we may begin to see connections to the past that we missed in life. While death may look like a loss to the living, the last hours of a dying person may be filled with fullness rather than emptiness. In this fascinating book, which includes a new Afterword, Kessler brings us stunning stories from the bedsides of the dying that will educate, enlighten, and comfort us all.

Rich particulars include the story of one seventeenth-century Bostonian who amassed a thousand pairs of gloves in his funeral-going lifetime, the unique burial rites and funerary symbols found in today's Native American cultures, and a "lost" Czech community brought uncannily to life in Chicago's Bohemian National Columbarium. The Meaning of Anxiety - Rollo May 2012-05-01

When this important work was originally published in 1950—the first book in this country on anxiety—it was hailed as a work ahead of its time. In the revised edition of this now-classic study, the distinguished author of *Love and Will* deepens his exploration into anxiety theory. Dr. May challenges the idea that mental health means living without anxiety, and he explores anxiety's potential for self-realization as well as ways to avoid its destructive aspects.

When Nietzsche Wept - Irvin D. Yalom 2019-08-06

In nineteenth-century Vienna, a drama of love, fate, and will is played out amid the intellectual ferment that defined the era. Josef Breuer, one of the founding fathers of psychoanalysis, is at the height of his career. Friedrich Nietzsche, Europe's greatest philosopher, is on the brink of suicidal despair, unable to find a cure for the headaches and other ailments that plague him. When he agrees to treat Nietzsche with his experimental "talking cure," Breuer never expects that he too will find solace in their sessions. Only through facing his own inner demons can the gifted healer begin to help his patient. In *When Nietzsche Wept*, Irvin Yalom blends fact and fiction, atmosphere and suspense, to unfold an unforgettable story about the redemptive power of friendship.

Staring at the Sun - Irvin D. Yalom 2008

Written in Irvin Yalom's inimitable story-telling style and capping a lifetime of work and personal experience, *Staring at the Sun* is a profoundly encouraging approach to the universal issue of mortality. At the age of 74 best-selling author Irvin Yalom turns his attention to one of the great human questions: our fear of death. He suggests that what he calls the 'awakening experience' can help us acknowledge, accept, and make use of our fear of death in a positive manner. These awakening experiences often follow a loss, a trauma, or the death of a loved one, illness or just growing old. Yalom shows us how such an awakening can be the turning point for a more meaningful life. This is a practical and tremendously useful book, including methods and techniques for dealing with the most prevalent kinds of fear: that anxiety which is hidden and appears to us as other problems in our lives. Dr. Yalom argues that once we confront our own mortality, we are inspired to rearrange our priorities, communicate more deeply with those we love, appreciate more keenly the beauty of life, and increase our willingness to take the risks necessary for personal fulfillment.

Written in Irvin Yalom's inimitable story-telling style, *Staring at the Sun* is a profoundly encouraging approach to the universal issue of mortality. In this magisterial opus, capping a lifetime of work and personal experience, Dr Yalom helps us recognize that the fear of death is at the heart of much of our day-to-day anxiety. This reality is often brought to the surface by an 'awakening experience' — a dream, a loss (such as the death of a loved one, a divorce, or the loss of a job or home), illness,

trauma, or ageing. Once we confront our own mortality, Dr Yalom writes, we are inspired to rearrange our priorities, communicate more deeply with those we love, appreciate more keenly the beauty of life, and increase our willingness to take the risks necessary for personal fulfillment. This is a book with tremendous utility, including the provision of techniques for dealing with the most prevalent kinds of fears of death — especially by living in the here and now, and by embracing what Dr Yalom calls 'rippling', the influence and impact we all have that has a life beyond our own.
