The Jersey Shore - Dominick Mazzagetti 2018-06-20

In The Jersey Shore, Dominick Mazzagetti provides a modern re-telling of the history, culture, and landscapes of this famous region, from the 1600s to the present. The Shore, from Sandy Hook to Cape May, became a national resort in the late 1800s and contributes enormously to New Jersey's economy today. The devastation of Hurricane Sandy in 2012 underscored the area's central place in the state's identity and the

rebuilding efforts after the storm restored its economic health. Divided into chronological and thematic sections, this book will attract general readers interested in the history of the Shore: how it appeared to early European explorers; how the earliest settlers came to the beaches for the whaling trade; the first attractions for tourists in the nineteenth century; and how the coming of railroads, and ultimately automobiles, transformed the Shore into a major vacation destination over a century later. Mazzagetti also explores how the impact of changing national mores on development, race relations, and the environment, impacted the Shore in recent decades and will into the future. Ultimately, this book is an enthusiastic and comprehensive portrait by a native son, whose passion for the region is shared by millions of beachgoers throughout the Northeast.

Sands of Time - Bill Lazarus 2004-04-08

The Sands of Time takes readers on a wild ride through the century of action, from the first makeshift race in 1903 to the incredible panorama of the 2003 Daytona 500. Each aspect of the story is accented with colorful anecdotes, featuring the cultured drivers of the early 1900s, jauntily racing against the clock in immaculate uniforms and scarves waving in the breeze, to the roughnecks from the Southern woods, who found themselves in jail as often as Victory Lane, to today's famous athletes who dare the famed high banks at speeds close to 200 mph. Each chapter also includes additional details on such topics as women drivers, sponsors and prize money, as well as origin of race flags, development of tires and the sites of forgotten tracks. The book is extensively illustrated with rarely seen photos drawn from ISC Publications Archives, the largest single collection of race photos in the world. The account is centered in Daytona Beach, a small Florida community that hosted the first race in 1903 and has come to embody motor sports in this country. Today, historic Daytona International Speedway remains the World Center of Racing. Written for a general audience, The Sands of Time brings to life an entire era, filled with colorful personalities and exciting on-track events that help explain why racing is now the largest spectator sport in America.'

So begins the swirling, serpentine world of Paraic O'Donnell's Victorian-inspired mystery, the story of a city cloaked in shadow, but burning with questions: why does the seamstress jump from the window? Why is a cryptic message stitched into her skin? And how is she connected to a rash of missing girls, all of whom seem to have disappeared under similar circumstances? On the case is Inspector Cutter, a detective as sharp and committed to his work as he is wryly hilarious. Gideon Bliss, a Cambridge dropout in love with one of the missing girls, stumbles into a role as Cutter's sidekick. And clever young journalist Octavia Hillingdon sees the case as a chance to tell a story that matters—despite her employer's preference that she stick to a women's society column. By turns smart, surprising, and impossible to put down, *The House on Vesper Sands* offers a glimpse into the strange undertow of late nineteenth-century London and the secrets we all hold inside us.

The Sands of Time - Margaret Greer 1989

When the Sahara Was Green - Martin Williams 2021-10-05

The little-known history of how the Sahara was transformed from a green and fertile land into the largest hot desert in the world The Sahara is the largest hot desert in the world, equal in size to China or the United States. Yet, this arid expanse was once a verdant, pleasant land, fed by rivers and lakes. The Sahara sustained abundant plant and animal life, such as Nile perch, turtles, crocodiles, and hippos, and attracted prehistoric hunters and herders. What transformed this land of lakes into a sea of sands? When the Sahara Was Green describes the remarkable history of Earth's greatest desert—including why its climate changed, the impact this had on human populations, and how scientists uncovered the evidence for these extraordinary events. From the Sahara's origins as savanna woodland and grassland to its current arid incarnation, Martin Williams takes us on a vivid journey through time. He describes how the desert's ancient rocks were first fashioned, how dinosaurs roamed freely across the land, and how it was later covered in tall trees. Along the way, Williams addresses many questions: Why was the Sahara previously much wetter, and will it be so again? Did humans contribute to its desertification? What was the impact of extreme climatic episodes—such as prolonged droughts—upon the Sahara's geology, ecology, and inhabitants? Williams also shows how plants, animals, and humans have adapted to the Sahara and what lessons we might learn for living in harmony with the harshest, driest conditions in an ever-changing global environment. A valuable look at how an iconic region has changed over millions of years, *When the Sahara Was Green* reveals the desert's surprising past to reflect on its present, as well as its possible future.

Footprints in the Sands of Time - Hank OpdenDries 2015-04-10

One of ten children, born in 1924 in a little Dutch town close to the German border, Hank OpdenDries grew up in a world surrounded by farms and wooded hills, a life much in contrast to the fast-paced world we understand, where the simple appearance of a car would be met with fascination by an entire village; the most common mode of transport at that time being the horse. As the hungry thirties set in, rumors of war precipitated by Hitler's Germany threatened to turn Hank's world upside down. When the invasion came, his world was transformed forever. Witnessing firsthand the German invasion of his homeland, Hank soon found himself, along with many other able-bodied Dutchmen, forced to work in the Ruhr to help the German war effort. Escaping back to the Netherlands, Hank went underground with a number of his friends, remaining in occupied Holland for the duration of the war. Helping to shelter a down British airman (who eventually escaped using the Dutch rail network while still dressed in his RAF uniform), Hank also saw Hitler's infamous V-2 rockets take flight, along with the Nazi's sadistic treatment of Holland's Jewish

population. Liberated from German occupation by Canadian soldiers in 1945, three years later, Hank found himself starting a new life as an immigrant to Canada. Vividly retold, Hank's story is one of survival and resistance in a time of unprecedented violence and treachery. His story is about not only tragedy but also heroism. In short, it is the story of Holland in the Second World War and one man's determination to build a new life for himself in the country that gave him his freedom.

Beneath the Sands of Time - Jody Cooke 2021-06-08

The poetry of Jody Cooke while greatly varied and at times seemingly unfocused in theme is a wonderful read and filled with rich emotional commentary. From man's base desires and carnal hunger to the more brutal aspects of rage, obsession, and the need for violence. Mr. Cooke takes a deep look into man's heart and pulls out the things we all try so desperately to hide. In other works he explores more romantic themes such as love, family, and the untamed wilds of our deepest imagination. Contained within this book are many such pieces. A body of work that is the result of a lifetime of creation. Here is a brief examination of a few of my favorites.

Sands of Time - Tanessa Puri 2015-08-31

And one by one the nights between our separated cities are joined to the night that unites us. A blanket of thoughts rushed through him. His mind re-winded, the first day when they met. As he readied himself to make the funeral speech. Outside her window, the lights of the glass building charmed her. The brightness gave her a kind of happiness, something beyond this world. Amidst her view of this building and the window was a road that stood on the brink of being desolate to scarcely busy. Occasionally, a passerby would greet the path. And, soon the lights would go out and the traveller would depart the road en route to his destination. Having flirted with the noise for too long, did she marry the calm?
