[Investing with Confidence](#) - Kevin W. Lu 2009

Coinciding with the Multilateral Investment Guarantee Agency's (MIGA) twentieth anniversary, "Investing with Confidence: Understanding Political Risk Management in the 21st Century" examines key political risk issues including claims and

arbitration, perspectives on pricing from the private, public and multilateral providers, as well as exploring new frontiers in sovereign wealth funds and Islamic finance. These topics are particularly relevant for today's uncertain markets, and provide important analysis and thinking from key practitioners and clients. Political risk insurance is critical to maintaining flows of foreign direct investment into developing markets; this volume offers valuable insights for practitioners and investors alike.

Moses Dobruska and the Invention of Social Philosophy -

Silvana Greco 2022-01-19

This book proposes, for the first time, an in-depth analysis of the *Philosophie sociale*, published in Paris in 1793 by Moses Dobruska (1753-1794). Dobruska was a businessman, scholar, and social philosopher, born into a Jewish family in Moravia, who converted to Catholicism, gained wide recognition at the Habsburg court in Vienna, and then emigrated to France to join the

French Revolution. Dobruska, who took on the name Junius Frey during his Parisian sojourn, barely survived his book. Accused of conspiring on behalf of foreign powers, he was guillotined on April 5, 1794, at the height of The Terror, on the same day as Georges Jacques Danton. From Dobruska's ideas, which were widely used between the late eighteenth century and the first decades of the nineteenth century without attribution to their author, emerge some of the key concepts of the social sciences as we know them today. An enthusiastic and unfortunate revolutionary and sometimes a brilliant theorist, Moses Dobruska deserves a role of his own in the history of sociology.

**A Prayer for Spiritual
Elevation and Protection** -

Muhyiddin Ibn 'Arabi
2007-06-01

Widely used for centuries in
Sufi circles, the prayer known
as "The Most Elevated Cycle"
(al-Dawr al-a'la) or "The Prayer
of Protection" (Hizb al-wiqaya),
written by the great Sufi
master Muhyiddin Ibn 'Arabi,
has never before been available
in English. This book provides
a lucid English translation and
an edited Arabic text of this
beautiful and powerful prayer.
It includes a transliteration for
those unable to read Arabic,
who wish to recite the prayer
in the original language.
Showing the importance of Ibn
'Arabi's devotional teaching,
the book explores the prayer's
contemporary life, properties
and historical transmission. It
gives full details of generations
of well-known scholars and Sufi
masters who have transmitted
the prayer, providing an
intimate and fascinating insight
into Islamic history.

The Craft of Sociology - Pierre Bourdieu 1991

The work of the French sociologist Pierre Bourdieu has emerged, over the last two decades, as one of the most substantial and innovative bodies of theory and research in contemporary social science. The Craft of Sociology, both a textbook and an original contribution to epistemology in social science, focuses on a basic problem of sociological research: the necessity of an epistemological break with the preconstructed objects social practice offers to the researcher. Pierre Bourdieu and his co-authors argue in the epistemological tradition of scholars like Bachelard, Canguilhem, Koyre, a tradition that identifies the construction

of the object as being the fundamental scientific act. Their way of discussing the issue makes it accessible not only to academics and experts of epistemology, but also to advanced students of social science, using for illustration a wide range of texts from the various social sciences as well as from philosophy of science. The book includes an interview with Pierre Bourdieu and an introduction by the editor to his sociological methodology. Francis bulletin signalétique - 1991

Beauvoir in Time - Meryl Altman 2020

"Beauvoir in Time situates Simone de Beauvoir's *The Second Sex* in the historical context of its writing and in later contexts of its international reception, from then till now. The book takes up three aspects of Beauvoir's work more recent feminists find embarrassing: "bad sex," "dated" views about lesbians, and intersections with race and class. Through close reading of her writing in many genres,

alongside contemporaneous discourses (good and bad novels in French and English, outmoded psychoanalytic and sexological authorities, ethnographic surrealism, the writing of Richard Wright and Franz Fanon), and in light of her travels to the U.S. and China, the author uncovers insights more recent feminist methodologies obscure, showing Beauvoir is still good to think with today"--

A Civil Society - James Smith Allen 2022-05

A Civil Society explores the struggle to initiate women as full participants in the masonic brotherhood that shared in the rise of France's civil society and its "civic morality" on behalf of women's rights. As a vital component of the third sector during France's modernization, freemasonry empowered women in complex social networks, contributing to a more liberal republic, a more open society, and a more engaged public culture. James Smith Allen shows that although women initially met with stiff resistance, their

induction into the brotherhood was a significant step in the development of French civil society and its "civic morality," including the promotion of women's rights in the late nineteenth century. Pulling together the many gendered facets of masonry, Allen draws from periodicals, memoirs, and archival material to account for the rise of women within the masonic brotherhood in the context of rapid historical change. Thanks to women's social networks and their attendant social capital, masonry came to play a leading role in French civil society and the rethinking of gender relations in the public sphere.

Early Greek Alchemy, Patronage and Innovation in Late Antiquity - Olivier Dufault 2019

Early Greek Alchemy, Patronage and Innovation in Late Antiquity provides an example of the innovative power of ancient scholarly patronage by looking at a key

moment in the creation of the Greek alchemical tradition. New evidence on scholarly patronage under the Roman empire can be garnered by analyzing the descriptions of learned magoi in several texts from the second to the fourth century CE. Since a common use of the term magos connoted flatterer-like figures (kolakes), it is likely that the figures of "learned sorcerers" found in texts such as Lucian's *Philopseudes* and the apocryphal *Acts of Peter* captured the notion that some client scholars exerted undue influence over patrons. The first known author of alchemical commentaries, Zosimus of Panopolis (c. 300 CE), presented himself neither as a magos nor as an alchemist. In his treatises, he rather appears as a Christian scholar and the client of a rich woman named Theosebeia. In three polemical letters to his patroness, Zosimus attempted to discredit rival specialists of alchemy by describing them as magoi and demon-worshippers and by equating their

techniques with Egyptian temple practice. In a subtler attempt to edge out his competitors, Zosimus pointed to their limited education and suggested that true alchemy could only be acquired by a meticulous interpretation of Greek alchemical texts. Extant evidence thus suggests that alchemical texts were first introduced among other Greek scholarly traditions when Zosimus annexed Egyptian temple rituals into the ambit of *paideia* thanks to the support and venue provided by his patroness.

L'aventure des écritures -

Bibliothèque nationale de France 1997
Une légende mésopotamienne attribue l'invention de l'écriture à Emmerkar, souverain de la cité

sumérienne d'Uruk. Souhaitant obtenir des métaux précieux du seigneur de la cité d'Aratta, il dépêcha un messenger qui eut à effectuer plusieurs allers et retours entre les deux cités séparées par sept chaînes de montagne, car les deux souverains ne parvenaient pas à se mettre d'accord. Au bout de quelques voyages, le messenger, fatigué, fut incapable de répéter le message. Alors Emmerkar écrivit ses volontés sur une tablette d'argile que le messenger apporta au seigneur d'Arata... Cette première exposition du cycle consacré à l'Aventure des écritures, a pour thème les " Naissances " et offre une comparaison originale et inédite des principaux systèmes d'écritures envisagés à travers le prisme passionnant des rapports entre signes, sons et sens. Ecrire c'est dessiner, comme le dit bien l'étymologie (graphein, en grec, signifie graver, dessiner, écrire). L'écriture est un art du visible. Mais dessiner, ce n'est pas encore écrire. De plus en plus de parole dans de moins

en moins de dessin, tel est, dans notre univers occidental latin plus que partout ailleurs, le destin de l'écriture. Cette Aventure des écritures, puisant aux sources historiques aussi bien que mythiques, nous entraîne de l'Égypte à la Chine, de la Mésopotamie à l'Inde et à l'Amérique précolombienne, à la découverte d'autres traditions scripturaires, plus soucieuses de dessiner le monde que de dessiner la parole, restituant à l'écriture toute la force de sa valeur d'image, toute sa part de signe. Car l'écriture ne reproduit pas la parole à l'identique, elle la donne à voir, en la traduisant dans une autre " langue ", celle de l'espace. Dans toutes les écritures, mais à des degrés divers, on retrouve une distorsion entre signe et parole. Cet écart est particulièrement sensible dans l'écriture chinoise où il est impossible de comprendre le sens d'un mot isolé lu à haute voix sans consulter le texte écrit, en raison d'un nombre très important d'homophonies, c'est un peu comme si,

entendant " la république ", on devait consulter le texte écrit pour savoir s'il faut comprendre " l'art est public ", " l'arrêt public ", ou " la raie publique ", etc. Ce qui ressort de la confrontation entre ces différentes traditions et que nous ne pouvons qu'admirer dans ces pages. C'est le rapport originel entre l'écriture et l'art : harmonie des idéogrammes chinois, magie des hiéroglyphes égyptiens, énigme des glyphes mayas, splendeur des calligraphies persanes et des micrographies hébraïques ou, plus près de nous en Occident, envolées de traits de plume à l'époque baroque... Accompagnant les reproductions de près de deux cents documents exceptionnels et souvent inédits, de nombreux tableaux, des chronologies, des cartes et des schémas explicatifs permettent au lecteur de suivre les démonstrations de cet ouvrage de référence historique et artistique.
