Bible School 1 Semester 2 - Shofar Christian Church 2020-06-01

The Bible teaches us that there is nothing more important than becoming like Jesus. The life of Jesus not only shows the full picture of who God is, but He also shows us what it means to be human. He is the quintessential man. In Him we see what a perfect relationship with God looks like, what our moral outlook should be, and what constitutes a good and worthy life. Through the ages, the church has confirmed that the Bible is both the standard and the guide that instructs, confronts and inspires us in the process of following Jesus. The way we see, understand, and experience God, ourselves, and the world

around us should thus ultimately be based upon what the Bible teaches us. This Bible School course is therefore intended to help you to build your life around the Word of God.

In Search of Happiness - Ashok Gulla 2010-03-30

Every person has a right to be happy, no matter in whatever condition he or she is placed in life. Happiness does not come automatically nor does it remain with us for all the time. It requires nurturing with a right attitude and better understanding of our goals in life. Sometimes, people have attitudes and hold certain beliefs that bring a lot of pain and turmoil in their lives.

The search for happiness starts with re-examining issues that bring us trials and tribulations. A simple way to have a fulfilling life is to love others. Loving others requires care, understanding, tolerance and patience. Family, relations and friends are a source of steadfast support and bring purpose to our lives. In today's world, wealth, professional status and society have a lot of influence on our well being and happiness. People feel wealth or professional success alone is sufficient to provide happiness; often, thereby losing balance in life. People talk about religion and spirituality that provide different perspective of human life. Each person is spiritual in essence and has inner spiritual needs to be fulfilled, to achieve peace, calmness and long term happiness. Spirituality helps us to resolve many of the problems of life, provided we take it with faith. We can bring happiness in our lives through having better values, understanding and a positive outlook. This book deliberates on each aspect of life, be it

love, attitude, family, society, profession, wealth, health, religion and spirituality, and discusses instances where we tend to err in our understanding. The focus of this book is to raise awareness of these issues so that readers can understand the relevance of these issues in their lives; and realize that current perception and outlook needs re look.

Reimagining God and Resacralisation - Alexa Blonner 2019-05-14

This book shows that widespread resacralisation has been taking place, which is producing new ways of perceiving God and the divine. The last century has seen unmistakable changes in religious practices and the concept of spirituality right across the world. There was a broad expectation for much of the twentieth century that religious worldviews would eventually succumb to the challenge of secularist materialism, but this process of secularisation has yet to occur as predicted. The book begins by contrasting theories of secularisation and resacralisation. Throughout the book, conceptual threads, or 'new religious themes', related to this resacralisation are discussed in terms of

three main categories: reimagining God's nature, substance and location; reimagining human value and purpose; and reimagining modes of redemption. Finally, the book considers how these threads are moving in various different directions, and what the religious future might hold. This is a bold examination of contemporary spirituality that will appeal to academics and scholars of religious studies, new religious movements and the sociology of religion.

The Spirit of Global Health - Simon Peng-Keller
2022-08-05

Since the beginning of the World Health Organization, many of its staff members, regional offices, member states, and directors-

general have grappled with the question of what a 'spiritual dimension' of health looks like, and how it might enrich the health policies advocated by their organisations. Contrary to the wide-spread perception that 'spirituality' is primarily related to palliative care and has emerged relatively recently within the organisation, this study shows that its history is considerably longer and more complex, and has been closely connected to the WHO's ethical aspirations, its quest for more holistic and equitable healthcare, and its struggle with the colonial legacy of international health organisations. While such ideals and struggles silently motivated many of the key actors and policies - such as the provision of universal primary healthcare - which for decades have embodied the organisation's loftiest aspirations, the WHO's official relationship with 'spirituality' advanced in fits, leaps, and setbacks. At times creative and interdisciplinary, at others deeply political, this process was marked by cycles of

institutional forgetting and remembering. Rather than as a triumph of religious lobbyists, this book argues, the 'spiritual dimension' of health may be better understood as a 'ghost' that has haunted - and continues to haunt - the WHO as it comes to terms with its mandate of advancing health as a state of 'complete well-being' available to all.

Dogmatic Constitution on Divine Revelation - Pope Paul VI. 1965

This document's purpose is to spell out the Church's understanding of the nature of revelation--the process whereby God communicates with human beings. It touches upon questions about Scripture, tradition, and the teaching authority of the Church. The major concern of the document is to proclaim a Catholic understanding of the Bible as the "word of God." Key elements include: Trinitarian structure, roles of apostles and bishops, and

biblical reading in a historical context.

Outgrowing Cultic Christianity - Robert P.

Vande Kappelle 2021-04-27

We live in a time of religious warfare, not just between different religions, but also between those with differing versions of the same faith. This religious distrust and political conflict may be the worst in American history since the Civil War. Speaking as a “progressive conservative,” biblical scholar Robert Vande Kappelle uses a four-stage model of faith development to rethink core Christian doctrines. Starting with current events and a discussion on the role of religion, this book examines how inadequate faith development makes people of faith susceptible to misinformation, conspiracy thinking, and even to cultic mindsets. People of faith do not choose to believe a lie; they all want to believe what is true. Hence, it is surprising that, in the realm of religion, so many people are willing to rely upon untested and even highly disputed beliefs, beliefs most received as children. Unfortunately,

many of these teachings are based upon ancient hopes and fears rather than upon factual historical information. Taken literally, dualistic teachings concerning heaven and hell, sin and salvation, good and evil, and apocalyptic beliefs such as the “end times” and the imminent return of Christ to earth are questionable, not only because they are beyond historical and scientific verification, but also because they can be misused by authoritarian leaders to control and mislead devout individuals. Thankfully, there is a way to outgrow cultic Christianity. The path to spiritual maturity comes by restoring the role of religion, a form of spirituality discovered not by addition, but by a process of subtraction. *Outgrowing Cultic Christianity* is useful for individual or group study. Each chapter concludes with questions suitable for discussion or reflection.

The Case Against Theism - Raphael Lataster

2018-06-14

This monograph offers a critique of arguments

for the existence of a specifically Christian God advanced by prominent scholar William Lane Craig. The discussion incorporates philosophical, mathematical, scientific, historical, and sociological approaches. The author does not seek to criticize religion in general, or Christianity specifically. Rather, he examines the modern and relatively sophisticated evidential case for Christian theism. Scholars have been arguing for theism or naturalism for centuries, and there seems little to add to the discussion, especially from the theistic side. However, to assume that either theism or naturalism obtains is a false dichotomy. There are alternatives to both that merit consideration. Employing a probabilistic approach, the author advances this discussion. His work uniquely utilizes not only naturalistic hypotheses to argue against theism. It also presents supernaturalistic hypotheses. This leaves no question that theism is almost certainly false, even if some form of divine reality exists. This project seeks not to argue

that Christianity or any other faith or religion is undesirable, but only to critically examine evidentialist claims posited by Christianity's learned apologists. In fact, a major secondary aim is to consider alternative god-conceptions, such as polytheism and pantheism. This work aims to highlight that Christian theism is often granted special privileges by theistic philosophers of religion, which seems doubly inappropriate when certain alternative god-conceptions may even prove to be more plausible.

The Principles of the Doctrine of Christ - J. J. Hall 2015-05-05

In the Principles of the Doctrine of Christ, the author has provided a Study Guide and commentary to encourage the understanding of the foundational tenets of Hebrews 6: 1 & 2 and facilitate their role in the believer's life. The

Study Guide looks to transcend differences and promote an applied theology perspective to the subject. The goal is not to solicit conformity to a specific denominational creed, but to chart the growth events ahead for new believers, and that have been obfuscated in many seasoned Christians. The overall purpose is to articulate a clearly delineated path for the individual to grow in the grace and knowledge of Jesus Christ. It is the first in a series designed to orient new converts to a fruitful walk in the Lord, so that they build their faith according to the pattern revealed in the Scriptures.

Supervision Modules to Support Educators in Collaborative Teaching - Kathryn L.

Lubniewski 2019-08-01

The classroom teacher in the 21st century is no longer a solo practitioner. What can school leaders use to facilitate on-going, job-embedded, intentionally focused professional development that is unique to the collective needs of teacher pairs and teams as they work together? What

can teacher preparation supervisors provide to support teacher candidates and cooperating teachers as they plan, teach, and assess student learning in a co-teaching context? Supervision Modules to Support Educators in Collaborative Teaching is a research-based supervisory handbook designed to promote on-going teacher reflection and development in collaborative teaching contexts. It is a tool for school leaders and teacher preparation supervisors to use for in-service and pre-service teacher development at all grade levels PK-12. The handbook's many resources provide practical guidance for meaningful teacher development that is field-based, relevant to daily teacher work, and artfully presented to build collaboration among teachers as they reflect and learn together. Unique to this approach is that school leaders and supervisors learn alongside teachers and teacher candidates as relevant topics are explored. The handbook contains a collection of eighteen interactive, activity-based modules that

focus on topical content knowledge and productive teaching practices. Embedded in the modules are pair and team activities that address problem-solving, dimensions of collaborative teaching, communication and collaboration skill development, understanding of diversity, cultural responsiveness, and shared understanding of evidence-based practices. This resource is easy to use. Once school leaders and supervisors select a module topic to address the needs of a particular pair or team, they are supported with foundational knowledge of the most current research on the topic, discussion questions about the topic, suggestions of productive practices, questions to deepen personal and group understanding, reflective professional growth activities, critical analysis of teaching scenarios, and monitoring, follow-up, and goal setting strategies. Modules can be used in any order and include reproducible materials for pairs and teams to use as they collaborate and grow professionally.
