Rhetoric in the Twenty-First Century - Nicholas J. Crowe
2016-04-26

This book arises from a symposium held in Oxford to consider the most fruitful trajectories of rhetoric in the 21st century. The gathering comprised an international

delegation of leading scholars convened to assess—from an array of perspectives – the various possible futures of the ancient discipline of rhetoric as it responds vitally to the evolving contexts of the new millennium. This collection commemorates that event by

extending its scrutiny into a number of specific fields of inquiry. It includes a foreword by Prof James J. Murphy, an introductory article by the editors, and six further articles commissioned from among the participants. The introduction provides a detailed account of the symposium, and foregrounds the delegates' articles with a résumé of their arguments and consequent relevance to the overarching theme. Each contribution is a freshly minted and original piece of scholarship, true to the generative and interactive spirit of the enterprise, and speaking pertinently to the field of international rhetoric studies at the present time. *Rhetoric in the Twenty-First Century* addresses a spectrum of concerns. Scholars and students of rhetoric and language-use will naturally find much of interest here, and the inclusive ambit of the work will also appeal to students of ethics, religion, comparative literature, intercultural studies, and the growing field of communication studies.

The Art Of Rhetoric - Aristotle 2014-09-02

In *The Art of Rhetoric*, Aristotle demonstrates the purpose of rhetoric—the ability to convince people using your skill as a speaker rather than the validity or logic of your arguments—and outlines its many forms and techniques. Defining important philosophical terms like *ethos*, *pathos*, and *logos*, Aristotle establishes the earliest foundations of modern understanding of rhetoric, while providing insight into its historic role in ancient Greek culture. Aristotle’s work, which dates from the fourth century B.C., was written while the

author lived in Athens, remains one of the most influential pillars of philosophy and has been studied for centuries by orators, public figures, and politicians alike. Political Women - Michele Lockhart 2013-09-25

This collection examines the ways in which women have used political rhetoric and political discourse to provide leadership, or assert their right to leadership, at the national level. While over the years

women have broken through traditional roles, they are still underrepresented in political leadership. In this text, scholars consider the various factors that continue to restrict political leadership opportunities for women as well as some of the ways in which individual women have strategically sought to enact political power and leadership for themselves. The contributors analyze various case studies of leadership positions at the national level, looking at women who have run, been nominated to run, or appointed to national positions. The interdisciplinary approach lends itself to: rhetoric; political rhetoric; political discourse; leadership studies; women's studies; gender issues; satire; pop culture.

Topics in Volume 1 of the series include academic writing, how to interpret writing assignments, motives for writing, rhetorical analysis, revision, invention, writing centers, argumentation, narrative, reflective writing, Wikipedia, patchwriting, collaboration, and genres.

Why is it so challenging to cultivate open government data? - Jonathan Crusoe 2019-05-29

Introduction: This compilation licentiate thesis focuses on open government data (OGD).

The thesis is based on three papers. OGD is a system that is organized when publishers collect and share data with users, who can unrestrictedly reuse the data. In my research, I have explored why it can be challenging to cultivate OGD. Cultivation is human activities that change, encourage, or guide human organizations towards a higher purpose by changing, introducing, managing, or removing conditions. Here, the higher purpose is OGD to realize believed benefits. Thus, OGD cultivation is an attempt to stimulate actors into organizing as OGD. Problem and Purpose: OGD is believed to lead to several benefits. However, the worldwide OGD movement has slowed down, and researchers have noted a lack of use. Publishers and users are experiencing a set of different impediments that are challenging to solve. In previous research, there is a need for more knowledge about what can impede the OGD organization, cause non-valuable organizing, or even

collapse the organization. At the same time, there is a lack of knowledge about how impediments shape the organization of OGD. This gap can make it hard to solve and overcome the impediments experienced by publishers and users. The sought-after knowledge can bring some understanding of the current situation of OGD. In this research, I have viewed the organization of OGD as an ecosystem. The purpose of this thesis is to draw lessons about why it can be challenging to cultivate OGD ecosystems by understanding OGD impediments from an ecosystem perspective. Research Design: I set out to explore OGD through qualitative research from 2016 to 2018. My research started with a pilot case study that led to three studies. The studies are each reported in a paper and the papers form the base of this thesis. The first paper aims to stimulate the conceptually oriented discussion about actors' roles in OGD by developing a

framework that was tested on a Swedish public agency. The second paper has the purpose of expanding the scope surrounding impediments and was based in a review and systematization of previous research about OGD impediments. The third paper presents an exploration of impediments experienced by publishers, users, and cultivators in the Swedish national OGD ecosystem to identify faults. From the three papers, lessons were drawn in turn and together, that are presented in this thesis.

Findings: Cultivators when cultivating OGD ecosystems are facing towering challenges. The following three main challenges are identified in this thesis: (1) to cultivate a system that can manage stability by itself without constant involvement, (2) to cultivate a system that is capable of evolving towards a “greater good” by itself, and (3) to have an up-to-date precise vocabulary for a self-evolving system that enables inter-subjective understand for

coordinating problem-solving.

Contribution: The theoretical contribution of this thesis is that OGD ecosystems can be viewed as a public utility. Moreover, I recommend that researchers approach the organizing of OGD as the cultivation of evolution, rather than the construction of a structure; to consider the stability of the system in growth, value, and participation; and to be cautious with how they label and describe OGD actors. For actors that are cultivating OGD, I recommend that they guide the OGD actors to help them organize; view OGD cultivation as the management of evolution (growth) towards a purpose; and view cultivation as a collaborative effort where they can supply ideas, technologies, practices, and expertise.

How to Read Like a Writer - Mike Bunn

When you Read Like a Writer (RLW) you work to identify some of the choices the author made so that you can better understand how such choices might arise in your own writing. The idea is to carefully examine the things you read, looking at the writerly techniques in the text in order to decide if you might want to adopt similar (or the same) techniques in your writing. You are reading to learn about writing. Instead of reading for content or to better understand the ideas in the writing (which you will automatically do to some degree anyway), you are trying to understand how the piece of writing was put

together by the author and what you can learn about writing by reading a particular text. As you read in this way, you think about how the choices the author made and the techniques that he/she used are influencing your own responses as a reader. What is it about the way this text is written that makes you feel and respond the way you do?

New Testament Rhetoric - Amos Professor of the New Testament for Doctoral Studies Ben Witherington, III III 2009 Witherington provides a much-needed introduction to the ancient art of persuasion and its use within the various New Testament documents. More than just an exploration of the use of the ancient rhetorical tools and devices, this guide introduces the reader to all that went into convincing an audience about some subject. Witherington makes the case that rhetorical criticism is a more fruitful approach to the NT epistles than the oft-employed approaches of

literary and discourse criticism. Familiarity with the art of rhetoric also helps the reader explore non-epistolary genres. In addition to the general introduction to rhetorical criticism, the book guides readers through the many and varied uses of rhetoric in most NT documents-not only telling readers about rhetoric in the NT, but showing them the way it was employed. ""This brief guide book is intended to provide the reader with an entrance into understanding the rhetorical analysis of various parts of the NT, the value such studies bring for understanding what is being proclaimed and defended in the NT, and how Christ is presented in ways that would be considered persuasive in antiquity."" - from the introduction ""Ben Witherington has used classical rhetorical criticism as a foundational method--writing commentaries on the entire New Testament canon. In this volume, he brings that extensive experience to the

task of writing an introduction to this exegetical method. . . . This will surely become the choice resource--the "new Kennedy"--for a main text in courses in rhetorical criticism or a supplementary text in courses on exegetical method, as well as a valuable and persuasive introduction to the method for ministry professionals interested in connecting the ongoing task of proclamation with the persuasive techniques of the New Testament." --David A. deSilva, Trustees' Distinguished Professor of New Testament and Greek, Ashland Theological Seminary
"Whether one is drawn to the promise of rhetorical study of the New Testament writings or is not yet persuaded by its utility, Witherington has provided a helpful--and persuasive!--primer. His easy familiarity with the ancient sources makes this an especially user-friendly introduction to the importance of ancient rhetoric for historical study of the New Testament." --Joel B. Green,

Professor of New Testament Interpretation, Fuller Theological Seminary "For those who want to add rhetorical analysis to their interpretation of the New Testament, Ben Witherington provides easy access to a not easily accessible subject. . . . Not stopping with mere description, Witherington always draws out the implications of the rhetorical nature of the biblical texts for interpretation and application." --Duane Watson, Professor of New Testament Studies, School of Theology, Malone College "Ben Witherington has produced a sterling volume on ancient rhetoric and its applicability to New Testament studies. . . . Importantly, Witherington carefully describes how an understanding of rhetoric affects biblical interpretation and Christian preaching. Anyone who is interested in the contours of early Christian discourse or would like to be able to preach and teach as persuasively as the biblical authors will find this volume

highly informative and immensely helpful. Another gem from the pen of Ben!"" -- Michael Bird, Tutor in New Testament at the Highland Theological College, Dingwall, Scotland Ben Witherington III (PhD, University of Durham) is Amos professor of New Testament for Doctoral Studies at Asbury Theological Seminary and doctoral faculty at St. Andrews University. He is the author of numerous books, including *The Living Word of God* (2008), *Shifting the Paradigms* (forthcoming) and several socio-rhetorical commentaries.

Sustainable Living at the Centre for Alternative Technology - Stephen Jacobs
2022-10-27

This book presents a detailed exploration into the Centre for Alternative Technology (CAT), an enterprise concerned with finding and communicating sustainable ways of living, established in Wales in 1973. Playing a central role in the global green network, this study examines CAT's history and context for creation, its

development over time, and its wider influence in the progression of green ideas at the local, national and international levels. Based on original archival and ethnographic research, this book provides the first in-depth analysis of CAT and uses the case study to explore wider issues of sustainability and environmental communication. It situates the Centre within current environmental and political discourse and emphasises the relevance and reach of CAT's practical solutions and creative educational programme. These practical solutions to the destruction of the environment of human activity are increasingly vital in today's context of climate change, loss of biodiversity and rising levels of pollution. It debates the spectrum of attitudes between environmentalism and ecologism evident at CAT and in broader conversations surrounding sustainability. Woven throughout the text, the author makes clear what we can learn from CAT's almost 50

years of experiments and experiences, from his first-hand account of working at the site. This will be a fascinating and revealing read for academics, researchers, students and practitioners interested in all aspects of sustainability and environmental issues.

The study of literature and economics is by no means a new one, but since the financial crash of 2008, the field has grown considerably with a broad range of both fiction and criticism. The Routledge Companion to Literature and Economics is the first authoritative guide tying together the seemingly disparate areas of literature and economics. Drawing together 38 critics, the Companion offers both an introduction and a springboard to this sometimes complex but highly relevant field. With sections on "Critical traditions," "Histories," "Principles," and "Contemporary culture," the book looks at examples from Medieval and Renaissance literature through to poetry of the Great Depression and novels depicting the 2008 financial crisis. Covering topics from Austen to austerity, Marxism to modernism, the

collated essays offer indispensable analysis of the relationship between literary studies and the economy. Representing a wide spectrum of approaches, this book introduces the basics of economics, while engaging with essential theory and debate. As the reality of economic hardship and disparity is widely acknowledged and spreads across disciplines, this Companion offers students and scholars a chance to enter this crucially important interdisciplinary area.

Keywords in Writing Studies - Paul Heilker 2015-02-15

Keywords in Writing Studies is an exploration of the principal ideas and ideals of an emerging academic field as they are constituted by its specialized vocabulary. A sequel to the 1996 work *Keywords in Composition Studies*, this new volume traces the evolution of the field's lexicon, taking into account the wide variety of theoretical, educational, professional, and institutional developments that have

redefined it over the past two decades. Contributors address the development, transformation, and interconnections among thirty-six of the most critical terms that make up writing studies. Looking beyond basic definitions or explanations, they explore the multiple layers of meaning within the terms that writing scholars currently use, exchange, and question. Each term featured is a part of the general disciplinary parlance, and each is a highly contested focal point of significant debates about matters of power, identity, and values. Each essay begins with the assumption that its central term is important precisely because its meaning is open and multiplex. *Keywords in Writing Studies* reveals how the key concepts in the field are used and even challenged, rather than advocating particular usages and the particular vision of the field that they imply. The volume will be of great interest to both graduate students and established scholars.

A Book of Student Writing from Rhetoric and Composition
People avoid writing because of the fear and anxiety they have about writing. Prior to

attending Penn State and taking a Rhetoric and Composition class, I was one of those people. Depending on the style and the way the material is presented, you will find yourself creating essays, outlining speeches, etc., without giving it a second thought. After my very first English course at Penn State, I was over the fear and was able to not only pass the course with an A but was approached by my Effective Speech and Communications professor requesting my papers be used as samples in her upcoming courses. You will find essays in this book on subject matter that will motivate and improve the writer's skills in the following areas: rhetorical analysis, position arguments, proposals, understanding the rhetorical situation, and many more. Also included are a couple of speeches that I thoroughly enjoyed preparing.
