Never Talk Back to a Gangster Part 2 - Alesana Marie

Never Talk Back to a Gangster Part 2 by Alesana Marie Muli kong naalala kung ano ang naramdaman ko sa kanya, sa halik niya. Kung gaano ako kasaya nang mga sandaling 'yon at kung gaano kaperpekto ang oras na 'yon para sa akin. Kaya naman nakapag-desisyon na ako. Alam ko na mahihirapan ako sa hinaharap pero ayokong isuko ang pagmamahal ko para sa taong una kong minahal simula palang. Kung hindi ko gagawin'to, baka sa hinaharap mag-sisi ako at tanungin ko ang sarili ko kung bakit pinagbawalan ko ang sarili ko? Palagi kong tatanungin kung ano ang mangyayari kung sakali na hinayaan ko ang sarili ko na mahulog din sa kanya. Isa itong makasariling desisyon, alam ko. Pero gusto ko siyang mahal. Gustong-gusto kong mahal siya kahit na mali pa. Published by Psicom Publishing Inc.

Sharing Responsibility - Luke Glanville 2021-05-18

A look at the duty of nations to protect human rights beyond borders, why it has failed in practice, and what can be done about it The idea that states share a responsibility to shield people everywhere from atrocities is presently under threat. Despite some early twenty-first century successes, including the 2005 United Nations endorsement of the Responsibility to Protect, the project has been placed into jeopardy due to catastrophes in such places as Syria, Myanmar, and Yemen; resurgent

nationalism; and growing global antagonism. In *Sharing Responsibility*, Luke Glanville seeks to diagnose the current crisis in international protection by exploring its long and troubled history. With attention to ethics, law, and politics, he measures what possibilities remain for protecting people wherever they reside from atrocities, despite formidable challenges in the international arena. With a focus on Western natural law and the European society of states, Glanville shows that the history of the shared responsibility to protect is marked by courageous efforts, as well as troubling ties to Western imperialism, evasion, and abuse. The project of safeguarding vulnerable populations can undoubtedly devolve into blame shifting and hypocrisy, but can also spark effective burden sharing among nations. Glanville considers how states should support this responsibility, whether it can be coherently codified in law, the extent to which states have embraced their responsibilities, and what might lead them to do so more reliably in the future. *Sharing Responsibility* wrestles with how countries should care for imperiled people and how the ideal of the responsibility to protect might inspire just behavior in an imperfect and troubled world.

All Quiet Along the Potomac - Ethel Lynn Beers 1879

The Neglected War - Hermann Hiery 1995-12-01

In the summer of 1914 Germany's Pacific colonies were a quiet backwater of its empire. But the shots of Sarajevo shattered the Pacific as well as Europe. Within weeks of the outbreak of World War I Western Samoa - German territory to be taken in the war - New Guinea, and the Micronesian lands, were occupied by Australian, New Zealand, and Japanese forces. Current historiography claims that World War I made

little difference to the indigenous populations of the Pacific and that this change in colonial masters had little effect on those they ruled. The Neglected War challenges this interpretation. World War I and its aftermath, Hermann Hiery claims, had a tremendous effect on the Pacific Islands, Hiery details the policies pursued by Australia, New Zealand, and Japan, showing how each viewed and treated the indigenous populations. Administered by military officers with little civil oversight, the new colonial regimes employed the mandates they had received at the Paris Peace Conference with impunity. Hiery's scrupulous review of the evidence, gathered from largely unknown primary sources, has uncovered a story of masquerades and coverups, negligence and duplicity, leading in some cases to full blown atrocities. Most of all, he tells the story of Pacific Islanders, how they coped with the dramatic changes brought about by the war, and how they tried to influence its consequences. Many Islanders were fully aware that their political destiny was to be redefined after the war, and a few even saw it as an opportunity to achieve independence. This is also the story of their failure. Behind the evidence gathered here lie fundamental questions. How important are the differences in the nature of particular colonial regimes, and what effect do such differences have on indigenous peoples? How do indigenous peoples interpret disparities in colonial rule? This revisionist work addresses these issues while shedding light on a crucial time in the history of the Pacific.

Passage of Change - Anita Jowitt 2010-11-01

Numerous issues face Pacific states trying to find their way in the early 21st century. Countries are striving to secure the benefits of modernisation. Governance, law and order are needed to reach such a goal, but development cannot be at the price of culture or the environment. The question of how to develop and maintain sound legal systems and legal rules whilst maintaining the unique cultural heritages within the Pacific is a challenge with no easy answer. This interdisciplinary collection locates issues of law and governance within the particular socio-political context of the Pacific island region, presenting sociological, anthropological and political insights alongside

jurisprudential analysis. Key issues including corruption, the role of customary law in modern legal systems, the place of human rights in the Pacific, environmental issues and the structure of the state are explored from a variety of perspectives.

Telling Pacific Lives - Vicki Luker 2008-06-01

"This volume of essays is an exploration of the way in which scholars from different disciplines, standpoints and theoretical orientations attempt to write life stories in the Pacific. It is the product of a conference organised by the Division of Pacific and Asian History at The Australian National University in December 2005. The aim of the conference was to explore ways in which Pacific lives are read and constructed through a variety of media: films, fiction, faction, history under four overarching themes. The first, Framing Lives, sought to explore various ways of constructing a life from a classic western perspective of birth, formation, experiences and death of an individual to other ways, for example, life as secondary to a longer genealogical entity, life as a symbol of collective experience, individual lives captured and fragmented in a mosaic of others, lives made meaningful by their

implication in a particular historical or cultural web, the underlying values and world views that inform one or another approach to framing a life. The second theme, the Stuff of Life, looked at materials, methods and collaborative arrangements with which the biographer, autobiographer and recorder work, their objectives, constraints, inspirations, challenges and tricks. The third section, Story Lines, focused on formats and genres such as edited diaries, collections of writings, voice recordings, genres of biography autobiography, truth and fiction (verse, dance, novels) and the varieties and different advantages of narrative shapes that crystallise the telling of a life. The final section, Telling Lives/Changing Lives, focused on biography/autobiography and the consciousness of identity, history, purpose, lives as witness and windows, telling lives as change for those involved in the tale, the telling, the listening. The overall aim was to bring out both the generic or universal challenges of telling lives as well as to highlight the particular tendencies and trends in the Pacific. Yet these four themes, which seemed analytically promising at the outset, proved in practice difficult to disentangle from the presentations at the workshop"--Provided by publisher.

The Political Spectrum - Thomas Winslow Hazlett 2017-05-23

From the former chief economist of the FCC, a remarkable history of the U.S. government's regulation of the airwaves Popular legend has it that before the Federal Radio Commission was established in 1927, the radio spectrum was in chaos, with broadcasting stations blasting powerful signals to drown out rivals. In this fascinating and entertaining history, Thomas Winslow Hazlett, a distinguished scholar in law and economics, debunks the idea that the U.S. government stepped in to impose necessary order. Instead, regulators blocked competition at the behest of incumbent interests and, for nearly a century, have suppressed innovation while quashing out-of-the-mainstream viewpoints. Hazlett details how spectrum officials produced a "vast wasteland" that they publicly criticized but privately protected. The story twists and turns, as farsighted visionaries—and the march of science—rise to challenge the old regime. Over decades, reforms to liberate the radio spectrum have generated explosive progress, ushering in the "smartphone revolution," ubiquitous social media, and the amazing wireless world now emerging.

Still, the author argues, the battle is not even half won.
