The Image of the City - Kevin Lynch 1964-06-15

The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and

memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.

Monarca - Leopoldo Gout
2022-04-19

An illustrated fable for all ages about a Mexican-American girl who transforms into a monarch butterfly and undertakes the

great migration to Mexico, Monarca braids together the values of heritage, ecology, and personal transformation. On her thirteenth birthday, Inés receives a mysterious necklace from her abuela in Mexico that turns her into a monarch butterfly—the fulfilment of a prophecy linking Inés' destiny to her family's legacy and the butterflies' survival. The adventure continues as Inés joins the monarchs on their long journey south to the butterfly sanctuary in Mexico—an odyssey that has become increasingly perilous due to human activity.

Together, the swarm travels from the northeast to the swamps of Louisiana to the pine-filled mountain tops of the western Sierra Madre, finally alighting at the Sierra Chincua sanctuary. On this wondrous journey in the vein of Jonathan Livingston Seagull and The Little Prince, Inés discovers the connections between all living beings, and the urgent need to protect the monarchs' migration and habitats. Divided into four chapters to mirror the

four stages in a monarch's life—egg, larva, pupa and butterfly—*Monarca* blends Mexican folklore, environmentalism, and magical realism in an enchanting novella. Illustrated with stunning full-color drawings by Leopoldo Gout, this book will inspire readers to protect and cherish the sacred natural world around them.

A Grain of Wheat - Ngugi wa Thiong'o 1986

In this ambitious and densely worked novel, we begin to see early signs of Ngugi's increasing bitterness about the ways in which the politicians are the true benefactors of the rewards of independence.

Recollections of a Pioneer - J. W. Gibson 2020-05-16

"*Recollections of a Pioneer*" is an autobiographical account by J. Watt Gibson, which primarily focuses on the author's participation in the American Civil War. The book was written at the solicitation of many Gibson's friends and acquaintances who urged that his recollections of that period ought to be preserved. It

covers the author's first journey to California in the late 1840s, gold mining, crossing the plains with cattle and his experiences during and after the Civil War, and ends with his return to Missouri and getting married in 1868.

My Children! My Africa! (TCG Edition) - Athol Fugard 1993-01-01

The search for a means to an end to apartheid erupts into conflict between a black township youth and his "old-fashioned" black teacher.

Dreaming of Light - Jayne Bauling 2012

Regile is a zama-zama working illegally in an abandoned mine near Barberton. He has moved up the ranks and is now paid a salary to keep the other child workers in line. Towards the end of a three-month stint underground, a fourteen-year-old boy from Mozambique, Taiba, starts asking questions about their rescue. Taiba constantly reaffirms his belief that they will be saved: by the police, by the private security firms that guard the mines, or maybe even by the mythical

Spike Maphosa. Regile knows that such hope is dangerous. The Cultivator & Country Gentleman - 1875

Communities in Action -

National Academies of Sciences, Engineering, and Medicine 2017-04-27

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are

not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. Communities in Action: Pathways to Health Equity seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

The American Psychiatric Association Practice Guidelines for the Psychiatric Evaluation of Adults, Third Edition -

American Psychiatric Association 2015-07-29

Since the publication of the Institute of Medicine (IOM) report Clinical Practice Guidelines We Can Trust in 2011, there has been an increasing emphasis on assuring that clinical practice

guidelines are trustworthy, developed in a transparent fashion, and based on a systematic review of the available research evidence. To align with the IOM recommendations and to meet the new requirements for inclusion of a guideline in the National Guidelines Clearinghouse of the Agency for Healthcare Research and Quality (AHRQ), American Psychiatric Association (APA) has adopted a new process for practice guideline development. Under this new process APA's practice guidelines also seek to provide better clinical utility and usability. Rather than a broad overview of treatment for a disorder, new practice guidelines focus on a set of discrete clinical questions of relevance to an overarching subject area. A systematic review of evidence is conducted to address these clinical questions and involves a detailed assessment of individual studies. The quality of the overall body of evidence is also rated and is summarized

in the practice guideline. With the new process, recommendations are determined by weighing potential benefits and harms of an intervention in a specific clinical context. Clear, concise, and actionable recommendation statements help clinicians to incorporate recommendations into clinical practice, with the goal of improving quality of care. The new practice guideline format is also designed to be more user friendly by dividing information into modules on specific clinical questions. Each module has a consistent organization, which will assist users in finding clinically useful and relevant information quickly and easily. This new edition of the practice guidelines on psychiatric evaluation for adults is the first set of the APA's guidelines developed under the new guideline development process. These guidelines address the following nine topics, in the context of an initial psychiatric evaluation: review of psychiatric symptoms, trauma

history, and treatment history; substance use assessment; assessment of suicide risk; assessment for risk of aggressive behaviors; assessment of cultural factors; assessment of medical health; quantitative assessment; involvement of the patient in treatment decision making; and documentation of the psychiatric evaluation. Each guideline recommends or suggests topics to include during an initial psychiatric evaluation. Findings from an expert opinion survey have also been taken into consideration in making recommendations or suggestions. In addition to reviewing the available evidence on psychiatry evaluation, each guideline also provides guidance to clinicians on implementing these recommendations to enhance patient care.

And Still I Rise - Maya Angelou
2011-08-17

Maya Angelou's unforgettable collection of poetry lends its name to the documentary film about her life, *And Still I Rise*, as seen on PBS's *American Masters*. Pretty women wonder where my secret lies. I'm not cute or built to suit a fashion model's size But when I start to tell them, They think I'm telling lies. I say, It's in the reach of

my arms, The span of my hips,
The stride of my step, The curl
of my lips. I'm a woman
Phenomenally. Phenomenal
woman, That's me. Thus begins
"Phenomenal Woman," just one
of the beloved poems collected
here in Maya Angelou's third
book of verse. These poems are
powerful, distinctive, and
fresh—and, as always, full of
the lifting rhythms of love and
remembering. And *Still I Rise*
is written from the heart, a
celebration of life as only Maya
Angelou has discovered it. "It
is true poetry she is writing,"
M.F.K. Fisher has observed,
"not just rhythm, the beat,
rhymes. I find it very moving
and at times beautiful. It has
an innate purity about it,
unquenchable dignity. . . . It is
astounding, flabbergasting, to
recognize it, in all the words I
read every day and night . . . it
gives me heart, to hear so
clearly the caged bird singing
and to understand her notes."
Fragile Conviction - Mathijs
Pelkmans 2017-03-14
How do specific secular and
religious ideologies—such as
nationalism, neoliberalism,

atheism, Pentecostalism,
Tablighi Islam, and
shamanism—gain popularity
and when do they lose
traction? To answer these
questions, Mathijs Pelkmans
critically examines the
trajectories of a range of
ideologies as they move into
the post-Soviet frontier in
Central Asia. Ethnographically
rooted in the everyday life of a
former mining town in
southern Kyrgyzstan, *Fragile
Conviction* shows how
residents have dealt with the
existential and epistemic crises
that arose after the collapse of
the Soviet Empire. Residents
became enchanted by the
truths of Muslim and Christian
missionaries, embraced the
teachings of neoliberal and
nationalist ideologues, and
were riveted by the visions of
shamanic healers. But no
matter how much enthusiasm
and hope these ideas first
engendered, the commitment
to any of them rarely lasted
very long. Pelkmans finds that
there is an inverse relationship
between the tenacity and the
effervescence of collective

ideas, between their strength to persist and their ability to trigger committed action. Introducing the concept of pulsation, he argues in *Fragile Conviction* that ideational power must be understood in relation to three aspects: the voicing of the idea, its tension with everyday reality, and its reverberation within groups of listeners. The conclusion that the power of conviction is rooted in the instability of sociocultural contexts is a message that has relevance far beyond urban Central Asia. *The Strange Case of Dr. Jekyll and Mr. Hyde* - Robert Louis Stevenson 1922

Critical Links - Richard Deasy 2002

Two purposes of this compendium are: (1) to recommend to researchers and funders of research promising lines of inquiry and study suggested by recent, strong studies of the academic and social effects of learning in the arts; and (2) to provide designers of arts education curriculum and instruction

with insights found in the research that suggest strategies for deepening the arts learning experiences and are required to achieve the academic and social effects. The compendium is divided into six sections: (1) "Dance" (Summaries: Teaching Cognitive Skill through Dance; The Effects of Creative Dance Instruction on Creative and Critical Thinking of Seventh Grade Female Students in Seoul, Korea; Effects of a Movement Poetry Program on Creativity of Children with Behavioral Disorders; Assessment of High School Students' Creative Thinking Skills; The Impact of Whirlwind's Basic Reading through Dance Programs on First Grade Students' Basic Reading Skills; Art and Community; Motor Imagery and Athletic Expertise; Essay: Informing and Reforming Dance Education Research (K. Elements of Causal Inference -

Jonas Peters 2017-11-29

A concise and self-contained introduction to causal inference, increasingly important in data science and machine learning. The mathematization of causality is a relatively recent development, and has become increasingly important in data science and machine learning.

This book offers a self-contained and concise introduction to causal models and how to learn them from data. After explaining the need for causal models and discussing some of the principles underlying causal inference, the book teaches readers how to use causal models: how to compute intervention distributions, how to infer causal models from observational and interventional data, and how causal ideas could be exploited for classical machine learning problems. All of these topics are discussed first in terms of two variables and then in the more general multivariate case. The bivariate case turns out to be a particularly hard problem for causal learning because there are no conditional independences as used by classical methods for solving multivariate cases. The authors consider analyzing statistical asymmetries between cause and effect to be highly instructive, and they report on their decade of intensive research into this

problem. The book is accessible to readers with a background in machine learning or statistics, and can be used in graduate courses or as a reference for researchers. The text includes code snippets that can be copied and pasted, exercises, and an appendix with a summary of the most important technical concepts.

Access & Excellence - John E. Roueche 1987

Drawing from an in-depth case study of the organizational climate, leadership, teaching, systems, programs, and student outcomes at Miami-Dade Community College (MDCC), this book addresses questions related to the achievement of both open access and high academic standards in the community college. Chapter I presents the rationale for the study and explains the Roueche-Baker Community College Excellence Model depicting the character of MDCC. Chapter II gives a brief history of MDCC and describes the social context of the educational reform program initiated by MDCC in

1975. Chapter III outlines the reforms initiated, planned, and implemented by the MDCC staff in eight basic areas: (1) curriculum, including general education courses; (2) assessment testing; (3) basic skills support; (4) Emphasis on Excellence, an honors program; (5) standards of academic progress; (6) Academic Alert, a feedback system about academic standing; (7) the computerized Advisement and Graduation Information System; and (8) faculty and staff development. Chapter IV presents the results and outcomes of these reforms. Chapters V, VI and VII presents findings regarding the organizational climate, leadership, and teaching at MDCC. Finally, chapter VIII summarizes the study findings. An eight-page reference list concludes the volume. (LAL) A Comprehensive Review For the Certification and Recertification Examinations for Physician Assistants - Claire Babcock O'Connell 2014-03-11 The new, fifth edition of A Comprehensive Review for the

Certification and Recertification Examinations for Physician Assistants is the foremost trusted preparation resource for the PANCE and PANRE. The text features high-yield outline-format review and pretest and post-test questions based on the blueprint of the National Commission on Certification of Physician Assistants (NCCPA). Developed and endorsed by the American Academy of Physician Assistants (AAPA) and the Physician Assistant Education Association (PAEA), this edition's content reflects up-to-date information and has been reviewed and validated by subject matter experts working hard in the field.

Patient Safety and Quality - 2008

"Nurses play a vital role in improving the safety and quality of patient care -- not only in the hospital or ambulatory treatment facility, but also of community-based care and the care performed by family members. Nurses need know what proven techniques and interventions they can use to enhance patient outcomes. To address this need, the Agency for Healthcare Research and Quality (AHRQ), with additional funding from the Robert Wood Johnson Foundation, has prepared this comprehensive, 1,400-page, handbook for nurses on patient safety and quality -- Patient Safety and Quality: An Evidence-Based Handbook for Nurses. (AHRQ Publication No. 08-0043)."--Online AHRQ blurb, <http://www.ahrq.gov/qual/nurses/shdbk>.

Mathematics for Computer Science - Eric Lehman 2017-03-08

This book covers elementary

discrete mathematics for computer science and engineering. It emphasizes mathematical definitions and proofs as well as applicable methods. Topics include formal logic notation, proof methods; induction, well-ordering; sets, relations; elementary graph theory; integer congruences; asymptotic notation and growth of functions; permutations and combinations, counting principles; discrete probability. Further selected topics may also be covered, such as recursive definition and structural induction; state machines and invariants; recurrences; generating functions.

Educating the Student Body -
Committee on Physical Activity
and Physical Education in the
School Environment
2013-11-13

Physical inactivity is a key determinant of health across the lifespan. A lack of activity increases the risk of heart disease, colon and breast cancer, diabetes mellitus, hypertension, osteoporosis,

anxiety and depression and others diseases. Emerging literature has suggested that in terms of mortality, the global population health burden of physical inactivity approaches that of cigarette smoking. The prevalence and substantial disease risk associated with physical inactivity has been described as a pandemic. The prevalence, health impact, and evidence of changeability all have resulted in calls for action to increase physical activity across the lifespan. In response to the need to find ways to make physical activity a health priority for youth, the Institute of Medicine's Committee on Physical Activity and Physical Education in the School Environment was formed. Its purpose was to review the current status of physical activity and physical education in the school environment, including before, during, and after school, and examine the influences of physical activity and physical education on the short and long term physical, cognitive and brain, and psychosocial health and

development of children and adolescents. Educating the Student Body makes recommendations about approaches for strengthening and improving programs and policies for physical activity and physical education in the school environment. This report lays out a set of guiding principles to guide its work on these tasks. These included: recognizing the benefits of instilling life-long physical activity habits in children; the value of using systems thinking in improving physical activity and physical education in the school environment; the recognition of current disparities in opportunities and the need to achieve equity in physical activity and physical education; the importance of considering all types of school environments; the need to take into consideration the diversity of students as recommendations are developed. This report will be of interest to local and national policymakers, school officials, teachers, and the education community, researchers,

professional organizations, and parents interested in physical activity, physical education, and health for school-aged children and adolescents.

The Promise of Happiness -

Sara Ahmed 2010-03-16

The Promise of Happiness is a provocative cultural critique of the imperative to be happy. It asks what follows when we make our desires and even our own happiness conditional on the happiness of others: "I just want you to be happy"; "I'm happy if you're happy." Combining philosophy and feminist cultural studies, Sara Ahmed reveals the affective and moral work performed by the "happiness duty," the expectation that we will be made happy by taking part in that which is deemed good, and that by being happy ourselves, we will make others happy. Ahmed maintains that happiness is a promise that directs us toward certain life choices and away from others. Happiness is promised to those willing to live their lives in the right way. Ahmed draws on the intellectual history of

happiness, from classical accounts of ethics as the good life, through seventeenth-century writings on affect and the passions, eighteenth-century debates on virtue and education, and nineteenth-century utilitarianism. She engages with feminist, antiracist, and queer critics who have shown how happiness is used to justify social oppression, and how challenging oppression causes unhappiness. Reading novels and films including Mrs. Dalloway, The Well of Loneliness, Bend It Like Beckham, and Children of Men, Ahmed considers the plight of the figures who challenge and are challenged by the attribution of happiness to particular objects or social ideals: the feminist killjoy, the unhappy queer, the angry black woman, and the melancholic migrant. Through her readings she raises critical questions about the moral order imposed by the injunction to be happy.

Writing in a Bilingual Program - Carole Edelsky
1986

A year-long study of the writing development of 27 first through third graders in an English/Spanish bilingual program was conducted during the 1980-81 school year.

Samples of the children's writing were collected at four intervals, coded for computer tallying, and analyzed in terms of code-switching, spelling, punctuation and segmentation, structural features, stylistic devices, and content.

Additionally, the context in which the writing developed was evaluated by classroom observations, teacher interviews, review of familial backgrounds, and a survey of the community language

situation. Myths about bilingual language proficiency, biliteracy, bilingual education, teaching writing, and learning to write are all countered by evidence presented in this study. In a discussion of implications, the concept of a whole language approach to writing instruction is supported, in which authentic and functional texts are offered to and produced by children. Examples of the children's writing with appropriate translations are given along with various tables. Informal follow-up information is presented in three epilogues dealing with changes in the researcher's commitment to the study's original writing theories, the writing of some students a year after the study; and a chronological outline of the demise of the bilingual program used in the study. Appendices list interview questions used for teachers and aides and categories for coding the writing data. This book contains 134 references. (ALL)

An African Elegy - Ben Okri

2015-04-30

Dreams are the currency of Okri's writing, particularly in this first book of poems, *An African Elegy*, but also in his books of short stories and prize-winning novel *The Famished Road*. Okri's dreams are made on the stuff of Africa's colossal economic and political problems, and reading the poems is to experience a constant succession of metaphors of resolution in both senses of the word. Virtually every poem contains an exhortation to climb out of the African miasma, and virtually every poem harvests the dream of itself with an upbeat restorative ending' - Giles Foden, *Times Literary Supplement*

THE EARLY GRADE READING ASSESSMENT - Amber K. Gove
2011-09-28

The Early Grade Reading Assessment (EGRA) measures students' progress towards reading. EGRA gauges early literacy skills through a 15-minute individual oral assessment of five fundamental reading skills. RTI worked with education experts to develop the EGRA in 2006, and it has been piloted and implemented in more than 40 countries. This volume aims to take stock of the substantial amount of information and experience generated through the use of EGRA, and to share this knowledge with practitioners, policymakers, and international donors. Chapters cover not only particular applications of the instrument but also put EGRA in the context of broader issues and developments in literacy and education.
