2017-11-20

Flexible in approach and full of colorful examples, this textbook provides a basic introduction to what art is and can be in the lives of people who do not necessarily think of themselves as "artists." You will be taught about a variety of art themes, genres, materials, and processes that appeal to novice art makers. The lessons are organized by themes of general subject matter or media. Options are available

for work in mixed media, crafts, photography and digital media, as well as in traditional drawing or painting media. After picking a theme of particular interest to you, look next at the four strands of lessons presented in that thematic unit. Moving from left to right, select one lesson from each consecutive strand and complete that lesson. Because each lesson builds upon previously presented knowledge and developed skill, as you progress through four lessons, one from each strand, you should grow in your understanding of art concepts, meanings, and processes, while also improving your art making skills. Completing this course will help you develop a new appreciation for the power and possibilities of art learning, by understanding better the art others create, as well as making it yourself.

*Garmenting* - Alexandra Schwartz 2022

"Garmenting: Costume as Contemporary Art centers on contemporary artists' explorations of how dress both expresses and shapes who we are-our personal, cultural, and political identities-and it is my hope that their work will help stimulate discussion and foster understanding during these troubled times. As the quintessential "outside the box" thinkers, artists have always been on the front lines of driving and processing social change; there is a reason cutting-edge art has long been referred to by a military term, "avant-garde." As society rebuilds, artists' insights about our world and how we inhabit it are more necessary than ever"-
