*Regulation and Compliance in the Atlantic Fisheries* - Stig S. Gezelius 2012-12-06

This is a book about fishermen's reasons for obeying fisheries law. The fish harvesting industry has become subject to state interference to an increasing extent over the past twenty years. As natural resources become scarce and subsequent fisheries regulations abound, the question of law-abidingness is brought to the public agenda. However, there is still little empirical data as regards the dynamics of compliance in

this field, and this book aims to meet a demand for in-depth knowledge. The cases studied can be regarded as instances of economies dependent on the harvesting of natural resources for both household and the market, and the study aims to contribute to the building of more adequate theory on the dynamics of compliance in such economies. However, focusing on a specific type of setting seldom constitutes a safe escape route for getting away from more pervasive sociological questions, and it certainly does not in this case. As any attempt to explain social phenomena, this study is faced with the fundamental sociological question of how the acts of individuals can best be understood. The question concerns the interface between the individual and the collectivity - between collective morality and self-interest. It thus deals with classical sociological issues such as the nature and regulatory capacity of group norms and sanctions, and the forms and roles of rationality and strategic action.

Pollution - Audrey C P Mougolo Iboumbi 2021-11-08  
Pollution: Concepts of Taboo in the Analysis of Danger and Purity By: Audrey C P Mougolo Iboumbi Learn about the anthropological basis for many of the traditional and cultural Congolese practices related to religion and the way in which these practices are thought to impact one's life, both then and now. Our Congolese ancestors believed that the best way to respect religious conventions was to avoid pollution - or sin and uncleanness - in society because it represented an evil spirit that impacted both the soul and the body. A work of nonfiction, *Pollution: Concepts of Taboo in the Analysis of Danger & Purity* details many aspects of Congolese culture as it pertains to pollution, particularly those related to anthropological taboos associated with sexual health and reproduction. Having been born and raised among these beliefs, Audrey C P Mougolo Iboumbi brings a first-person perspective that allows the

reader to better understand what may be foreign or unfamiliar concepts through personal stories and details.

**Personal and Public Lives and Relationships in a Changing Social World** -

Rosemary Rae 2014-07-24

The field of personal life is a relatively new area of

sociological study that seeks to understand the complexities of contemporary personal and social relationships. This includes exploration of the impact of social, economic, legal, and political change on personal experiences, opportunities, and life-styles. This ground breaking edited collection presents research on personal and public lives in a period of rapid social and political change. Relatively little is known about how personal and public aspects of life inter-relate and even less about how the outcomes of this relationship shape different areas of life. This book aims to capture and understand the effects of these overlapping spheres on the everyday lives of people in different geographical, cultural, and spatial settings. It brings together research in four key areas; migration and displacement, gender, sexuality, and health, with two main overarching themes. The first theme is how individuals cope with social, political, geographical, and cultural

change in these diverse settings. The second relates to how these changes produce diverse inequalities that impact on relationships, roles, and responsibilities. The book thus seeks to increase the visibility of particular aspects of life that have often been neglected in social science research and subsequently open them up to further research and debate.

**Dancing for Your Life** -

Brandon Royal 2013-01-01

Dancing for Your Life chronicles the true story of a beautiful, young Filipina who, in order to help her family financially, leaves her home in the quiet Philippines countryside to work as a go-go dancer in Hong Kong's red-light district of Wan Chai. It presents a rare first-person account that is thought provoking and controversial. Here is the "untold story" of faith, friendship, and sacrifice, but also of triumph and forgiveness. Target Audience: This book will hold special appeal for readers interested in gaining a behind-the-scenes look at the workings of an Asian go-go bar. It also lends itself to classroom or group discussion and would be a welcomed companion for courses in sociology, social science, cultural studies, gender studies, or spirituality. It provides a platform to explore the complexity of terms such as "freewill," "freedom," "duty," "obligation," "sacrifice," and "exploitation." "Straightforward. Honest. Storytelling that works because

it bleeds truth on every page."

—Karl Taro Greenfeld, former Editor, Time Asia magazine  
*Rulers and Victims* - Geoffrey Hosking 2006

Many westerners used to call the Soviet Union "Russia." Russians too regarded it as their country, but that did not mean they were entirely happy with it. In the end, in fact, Russia actually destroyed the Soviet Union. How did this happen, and what kind of Russia emerged? In this illuminating book, Geoffrey Hosking explores what the Soviet experience meant for Russians. One of the keys lies in messianism--the idea rooted in Russian Orthodoxy that the Russians were a "chosen people." The communists reshaped this notion into messianic socialism, in which the Soviet order would lead the world in a new direction. Neither vision, however, fit the "community spirit" of the Russian people, and the resulting clash defined the Soviet world. Hosking analyzes how the Soviet state molded Russian identity, beginning

with the impact of the Bolshevik Revolution and civil war. He discusses the severe dislocations resulting from collectivization and industrialization; the relationship between ethnic Russians and other Soviet peoples; the dramatic effects of World War II on ideas of homeland and patriotism; the separation of "Russian" and "Soviet" culture; leadership and the cult of personality; and the importance of technology in the Soviet world view. At the heart of this penetrating work is the fundamental question of what happens to a people who place their nationhood at the service of empire. There is no surer guide than Geoffrey Hosking to reveal the historical forces forging Russian identity in the post-communist world.
