Birthing from Within - Pam England 2007

"Giving birth is the pivotal moment of a woman's life but it is often treated as a medical procedure, and not as a rite of passage. Birthing from Within offers parents engaging and memorable ways for pregnant women, and their partners, to activate personal, social and spiritual resources that will guide them through labour and afterwards. Many birth classes teach from the 'outside', from the perspective of the professional. Yet, knowledge of anatomy and the stages of labour can often seem irrelevant in the intensity of contraction. The pregnant woman needs to know about labour and birth from her own perspective, she needs to be prepared for birthing from within. Pam England offers a method that allows a woman to fully understand her own strengths and resources. The self-discoveries made during pregnancy makes birth life-enhancing and empowers the future of the family. It is a multi-sensory and holistic approach that aims to make parents feel positively informed about what they are about to experience, confident about the birth of their child. Pain is an inevitable part of childbirth but Birthing from Within provides resources for building pain-coping confidence in parents. It gives detailed instructions on dealing with normal labour pain and when the humane use of drugs may be called for."--Cover.

pregnancy, childbirth, and the postpartum period, regardless of their wealth or location.
