[Governance in China](#) - Chao Ye 2021-05-21

This book divides the history of China's rural-urban relations into three stages: antagonism, integration and re-antagonism, and demonstrates that the two coupled variables i.e., policy-culture and coast-trade are the most crucial to urbanization and rural-urban governance in China from ancient times till now. From the perspective of a combination of history and geography, this book puts forward a new theory which is mainly based on Adam Smith's theory and other theories about rural-urban relationship and reinterprets the process and driving forces of evolutionary history of rural-urban relationship over 5,000 years in China.
