The Four Foundations of Mindfulness in Plain English - Henepola Gunaratana 2012-08-07

In simple and straightforward language, Bhante Gunaratana shares the Buddha's teachings on mindfulness and how we can use these principles to improve our daily lives, deepen our mindfulness, and move closer to our spiritual goals. Based on the classic Satipatthana Sutta, one of the most succinct yet rich explanations of meditation, Bhante's presentation is nonetheless thoroughly modern. The Satipatthana Sutta has become the basis of all mindfulness meditation, and Bhante unveils it to the reader in his trademark "plain English" style. Contemplating the Four Foundations of Mindfulness--mindfulness of the body, of feelings, of the mind, and of phenomena themselves--is recommended for all practitioners. Newcomers will find The Four Foundations of Mindfulness in Plain English lays a strong groundwork for mindfulness practice and gives them all they need to get started right away, and old hands will find rich subtleties and insights to help consolidate and clarify what they may have

begun to see for themselves. People at every state of the spiritual path will benefit from reading this book.

The Brain That Changes Itself - Norman Doidge 2007-03-15

"Fascinating. Doidge's book is a remarkable and hopeful portrait of the endless adaptability of the human brain."—Oliver Sacks, MD, author of *The Man Who Mistook His Wife for a Hat* What is neuroplasticity? Is it possible to change your brain? Norman Doidge's inspiring guide to the new brain science explains all of this and more. An astonishing new science called neuroplasticity is overthrowing the centuries-old notion that the human brain is immutable, and proving that it is, in fact, possible to change your brain. Psychoanalyst, Norman Doidge, M.D., traveled the country to meet both the brilliant scientists championing neuroplasticity, its healing powers, and the people whose lives they've transformed—people whose mental limitations, brain damage or brain trauma were seen as unalterable. We see a woman born with half a brain that rewired itself to work as a whole, blind people who learn to see, learning disorders cured, IQs raised, aging brains rejuvenated, stroke patients learning to speak, children with cerebral palsy learning to move with more grace, depression and anxiety disorders successfully treated, and lifelong character traits changed. Using these marvelous stories to probe mysteries of the body, emotion, love, sex, culture, and education, Dr. Doidge has written an immensely moving, inspiring book that will permanently alter the way we look at our brains, human nature, and human potential.

Holy Sh!t We're Alive - Doug Cartwright

2021-08-10

Participating in psychedelic ceremonies with shamans from the Amazon. Diving headfirst into rituals at Burning Man. Flying across the world to work with spiritual gurus in Bali. These were never on Doug Cartwright's radar as "must-have" experiences, but when you're a twentysomething ex-Mormon ex-millionaire living deeply unfulfilled after doing everything you were "supposed to," you start searching for a normal reality far from your original version. This book is Doug's story, a psychedelic journey into meditation, silent retreats, astrophysics, neuroscience, philosophy, and all forms of self-healing. It's how he found the purpose of life, realized his mistakes, and built a new reality. Doug's story is how he shifted his perspective on life-and it's how you can learn to shift yours. In *Holy Sh!t We're Alive*, Doug shows you how to live with intention, trust yourself, and show up every day for a meaningful life. You'll learn mind-blowing facts and important clues to understand your existence and unique contributions. Self-love can be your superpower. No matter who you are or where you've been, this book gives you permission-and motivation-to do the work and throw out the garbage holding you back so you, too, can maximize your human experience.

Mindfulness and Grief - Heather Stang

2018-12-06

Without proper support, navigating the icy waters of grief may feel impossible. The grieving person may feel spiritually bankrupt and often the loss is so painful that the bereaved may lose faith in what they once held dear. Mindfulness meditation can restore hope by offering a compassionate safe haven for healing and self-reflection. While nobody can predict the path of someone else's grief, this book will guide the reader forward through the grieving process with simple mindfulness-based exercises to restore mind, body and spirit. These easy-to-follow meditations will help the reader to cope with the pain of loss, and embark on a healing journey. Each chapter focuses on a different aspect of grief, and the guided meditations will calm the mind and increase clarity and focus. *Mindfulness and Grief* will help readers to begin the process of reconstructing the shattered self that is left in the wake of any major loss.

Self-Compassion - Dr. Kristin Neff 2011-04-19

Kristin Neff, Ph.D., says that it's time to "stop

beating yourself up and leave insecurity behind.” *Self-Compassion: Stop Beating Yourself Up and Leave Insecurity Behind* offers expert advice on how to limit self-criticism and offset its negative effects, enabling you to achieve your highest potential and a more contented, fulfilled life. More and more, psychologists are turning away from an emphasis on self-esteem and moving toward self-compassion in the treatment of their patients—and Dr. Neff’s extraordinary book offers exercises and action plans for dealing with every emotionally debilitating struggle, be it parenting, weight loss, or any of the numerous trials of everyday living.

[Bedtime Stories for Adults](#) - Stacey Joyful
2021-02-05

We never plan to stay up for hours into the night, yet sometimes it seems like sleep is an unachievable goal. The longer we are stuck awake in bed, the more frustrated we become. Everyone knows we need seven to eight hours of sleep every night, but when you are finding it hard to reach that number of hours, it can feel like a cruel joke. We get tempted to believe blatant falsehoods about sleep. Lies like "I can get by on five hours of sleep" are common among people who don't get enough sleep, and ideas like this are simply untrue. This fact should convince you to leave behind your life of not getting enough sleep: with scientists looked at the brains of people who got just six hours of sleep every night for a month, and compared it with people who didn't sleep at all for one night, they had the similar levels of cognitive decline. When you are used to having this much cognitive decline because you have it every day, you don't realize it the way you do when you lose your sleep all at once with an all-nighter, but the science shows that both are equally bad for your ability to think. But there's no reason to stress over losing sleep any longer, because *Bedtime Stories for Adults* has everything you need to fall asleep. Not only does it provide you with fully fleshed-out stories for adults, but it starts out giving you practical tips on how to control anxiety and improve your mindfulness. These stories blend family holiday traditions with the seasonal changes on the way to adulthood; they deal with the challenges of growing up and being part of a family. Every story needs conflict to keep our interest, but these stories give you a

character to cheer on as they grapple with their problem while simultaneously relaxing your mind, body, and spirit. They were written by someone who has experience in crafting these kinds of stories: stories that lull us to sleep with an accessible style, pacing that won't break your neck, and characters we relate to so much that we lose ourselves in them. Do you remember the last time you lost yourself in a story - when you felt so involved in it that it took some time to get yourself back into the mindset required for real life after you were done? These stories were written just for the purpose of you experiencing that again. But not only that - these stories are not story-focused, but sensory-focused. You won't be able to help yourself from following asleep reading them, because they each take their time to paint a full picture with every sense: taste, smell, touch, hearing, and sight. But maybe you still aren't convinced of the use of stories for bedtime. You might still think of stories as something you can use for entertainment exclusively, instead of for this. The only way you can do it is by taking the plunge. You have already lost too much sleep from not having the right tools for dealing with it. Don't let that happen any longer. Click the "Buy Now" button to change everything about your sleeping life for the better. You will notice such a drastic change that you will wonder how you were ever able to go through the day sleep-deprived.

Radical Acceptance - Tara Brach 2004-11-23
For many of us, feelings of deficiency are right around the corner. It doesn't take much--just hearing of someone else's accomplishments, being criticized, getting into an argument, making a mistake at work--to make us feel that we are not okay. Beginning to understand how our lives have become ensnared in this trance of unworthiness is our first step toward reconnecting with who we really are and what it means to live fully. —from *Radical Acceptance*
"Believing that something is wrong with us is a deep and tenacious suffering," says Tara Brach at the start of this illuminating book. This suffering emerges in crippling self-judgments and conflicts in our relationships, in addictions and perfectionism, in loneliness and overwork—all the forces that keep our lives constricted and unfulfilled. *Radical Acceptance* offers a path to freedom, including the day-to-day practical guidance developed over Dr. Brach's twenty years of work with therapy clients and Buddhist students. Writing with great warmth and clarity, Tara Brach brings her teachings alive through personal stories and case histories, fresh interpretations of Buddhist tales, and guided meditations. Step by step, she leads us to trust our innate goodness, showing how we can develop the balance of clear-sightedness and compassion that is the essence of *Radical Acceptance*. *Radical Acceptance* does not mean self-indulgence or passivity. Instead it empowers genuine change: healing fear and shame and helping to build loving, authentic relationships. When we stop being at war with ourselves, we are free to live fully every precious moment of our lives.

The Mindfulness Edge - Matt Tenney 2016-02-10

The one habit that can improve almost every leadership skill There is a simple practice that can improve nearly every component of leadership excellence and it doesn't require adding anything to your busy schedule. In The

Mindfulness Edge, you'll discover how a subtle inner shift, called mindfulness, can transform things that you already do every day into opportunities to become a better leader. Author Matt Tenney has trained leaders around the world in the practice of mindfulness. In this book, he partners with neuroscientist Tim Gard, PhD, to offer step-by-step, practical guidance for quickly and seamlessly integrating mindfulness training into your daily life—rewiring your brain in ways that improve both the 'hard' and 'soft' skills of leadership. In this book, you'll learn how mindfulness training helps you: Quickly improve business acumen and your impact on the bottom line Become more innovative and attract/retain innovative team members Develop the emotional intelligence essential for creating and sustaining a winning culture Realize the extraordinary leadership presence that inspires greatness in others The authors make a compelling case for why mindfulness training may be the 'ultimate success habit.' In addition to helping you improve the most essential elements of highly effective leadership, mindfulness training can help you discover unconditional happiness and realize incredible meaning—professionally and personally.

33 Guided Visualization Scripts to Create the Life of Your Dreams - Louise Stapely
2014-08-27

Do you have enough money in your bank account? Are you head over heels in love with your partner? Are you surrounded by loving, caring friendships? Do you love your job? Do you have a close, loving relationship with your family? Are you driving the car of your dreams? Do you have a great relationship with your children? Are you healthy? When on vacation, do you stay in the top, most luxurious hotels in the world? Do you have peace of mind? Do you live in your dream house? Are you a confident, happy person? Do you have your own successful, thriving business? If you answered Yes to the above questions, then congratulations, you have mastered the art of visualization, whether consciously or unconsciously. You are aware of how powerful this technique can be. You know with 100% certainty that you can have and achieve ANYTHING your heart desires. You have mastered the art of mind power, and truly live the life of your dreams. You desire, you visualize, and you manifest, each and every time. If, on the other hand, you answered No to any of the above questions, then I urge you to learn everything you possibly can about visualization. Learn how it can completely transform your life. In this book, *33 Guided Visualization Scripts to Create the Life of Your Dreams*, you will learn what steps to take in order to visualize correctly. There are 33 scripts provided, divided into financial abundance, career, family, relationships, love, health, peace of mind, and addictions. Each script will show you how to engage your senses to boost results and manifest successfully. It doesn't matter how much you currently have in the bank, it doesn't matter if you are in debt up to your eyeballs, it doesn't matter if you feel you will never meet the love of your life, it doesn't matter if you hate your job and feel there is no way out. I promise you here and now, there is a way out. You deserve to have everything your heart desires. Happiness, success, perfect health, loving relationships, financial abundance, and peace of mind are your birthright. And they are there for the taking. Through positive, consistent visualization, your life will change. It will

become the life you have always longed for; always dreamed about. There are no limitations with what you can have, achieve or be. Any limitations you feel there are, are only in your mind, and can be eradicated, SHOULD be eradicated. The sky is the limit. Make a promise to yourself that today, from this very moment, is the first day on your journey to total transformation. No more procrastination, no more 'starting on Monday', no more 'I'm too busy.' The time is now. Allow magic and miracles into your life.

Trauma-Sensitive Mindfulness: Practices for Safe and Transformative Healing - David A. Treleaven 2018-02-13

"[A] rare combination of solid scholarship, clinically useful methods, and passionate advocacy for those who have suffered trauma." —Rick Hanson, PhD, author of *Buddha's Brain: The Practical Neuroscience of Happiness, Love, and Wisdom* From elementary schools to psychotherapy offices, mindfulness meditation is an increasingly mainstream practice. At the same time, trauma remains a fact of life: the majority of us will experience a traumatic event in our lifetime, and up to 20% of us will develop posttraumatic stress. This means that anywhere mindfulness is being practiced, someone in the

room is likely to be struggling with trauma. At first glance, this appears to be a good thing: trauma creates stress, and mindfulness is a proven tool for reducing it. But the reality is not so simple. Drawing on a decade of research and clinical experience, psychotherapist and educator David Treleaven shows that mindfulness meditation—practiced without an awareness of trauma—can exacerbate symptoms of traumatic stress. Instructed to pay close, sustained attention to their inner world, survivors can experience flashbacks, dissociation, and even retraumatization. This raises a crucial question for mindfulness teachers, trauma professionals, and survivors everywhere: How can we minimize the potential dangers of mindfulness for survivors while leveraging its powerful benefits? Trauma-Sensitive Mindfulness offers answers to this question. Part I provides an insightful and concise review of the histories of mindfulness and trauma, including the way modern neuroscience is shaping our understanding of both. Through grounded scholarship and wide-ranging case examples, Treleaven illustrates the ways mindfulness can help—or hinder—trauma recovery. Part II distills these insights into five key principles for trauma-sensitive mindfulness. Covering the role of attention, arousal, relationship, dissociation, and social context within trauma-informed practice, Treleaven offers 36 specific modifications designed to support survivors' safety and stability. The result is a groundbreaking and practical approach that empowers those looking to practice mindfulness in a safe, transformative way.

Guided Meditation Script - Barclay J Fisher
2020-02-12

If you choose to use one or more of these scripts to facilitate a guided meditation journey for others, please preface the trip for them by reminding them that no longer all people "see" matters for the duration of a guided meditation. This is very important, because our purpose is for them to go a bit closer to their soul during the journey, now not to supply them one more cause to consider they've failed. In the years that I've been using these guided meditations, many human beings have shared experiences with me where they weren't capable of seeing anything, but they did hear something. Or they felt the

environment with imaginary kinesthetic touch. Or they just had a deep sense of internal understanding about something all through the internal journey. All of this is perfectly okay! And as soon as in a while, any person doesn't see, hear, sense, or think about anything. That's flawlessly okay, as well. Certain internal journeys simply don't "fit" with some people. And sometimes, a guided meditation desires to be listened to and experienced more than once to sufficiently loosen up and open up a person's inner world. Also, at the cease of facilitating one of these Inner Journeys, please allow participants ample time to manner their experience. You might favor to supply them several minutes to write in their journals, or you may prefer to invite small group voluntary sharing. It also may help to make yourself available afterward for a personal conversation about their journey within the meditation. It's surely essential that every man or woman has a way to specific and combine the guided meditation experience. For some people, this capacity verbal sharing with others; for others, this potential time to absorb it quietly and in solitude, into their very own reality. Each of these Magical Inner Journeys was given to me as a direct present from Spirit. I hope that you revel in experiencing them and facilitating them as a whole lot as I have. And A Word About Inner Voices Our internal voices are additionally regarded as our internal parts or persona aspects. I, in my view, like referring to mine as a Committee. I sincerely think of a huge convention desk in an office building, and everybody sitting around it are individual parts of ME that have something to say about what I do and who I am. You may want to also suppose of it as your inner family, and image them sitting around a huge dining room table. And of course, every family member has something to say, an opinion to give.

The Tapping Solution - Nick Ortner
2013-04-02

Nick Ortner, founder of the Tapping World

Summit and best-selling filmmaker of The Tapping Solution, is at the forefront of a new healing movement. In his upcoming book, The Tapping Solution, he gives readers everything they need to successfully start using the powerful practice of tapping - or Emotional Freedom Techniques (EFT). Tapping is one of the fastest and easiest ways to address both the emotional and physical problems that tend to hamper our lives. Using the energy meridians of the body, practitioners tap on specific points while focusing on particular negative emotions or physical sensations. The tapping helps calm the nervous system to restore the balance of energy in the body, and in turn rewire the brain to respond in healthy ways. This kind of conditioning can help rid practitioners of everything from chronic pain to phobias to addictions. Because of tapping's proven success in healing such a variety of problems, Ortner recommends to try it on any challenging issue. In The Tapping Solution, Ortner describes not only the history and science of tapping but also the practical applications. In a friendly voice, he lays out easy-to-use practices, diagrams, and worksheets that will teach readers, step-by-step, how to tap on a variety of issues. With chapters covering everything from the alleviation of pain to the encouragement of weight loss to fostering better relationships, Ortner opens readers' eyes to just how powerful this practice can be. Throughout the book, readers will see real-life stories of healing ranging from easing the pain of fibromyalgia to overcoming a fear of flying. The simple strategies Ortner outlines will help readers release their fears and clear the limiting beliefs that hold them back from creating the life they want.

A Guide for Writing and Recording Guided Imagery Meditations - Glenda Cedarleaf
2019-01-22

"I recommend this thoughtful, experienced guidance for use by psychotherapists, meditation teachers, chaplains, and wellness, sports or personal coaches - in other words, anyone who wants to incorporate their own recorded guided meditation audios into their practice, to enhance their impact during "off hours," with the help of these empowering, adjuvant tools."Belleruth Naparstek ACSW creator of Health Journeys and author of Invisible Heroes, Survivors of Trauma

and How They Heal." Do you want to help those you serve reduce their anxiety, cope with pain, improve their sleep and learn self-care strategies that work? Eff This! Meditation - Ms. Liza Kindred

2019-10-22

Are you stressed out, anxious, or overwhelmed? Get out of the storm swirling in your head—and into the peaceful place inside you. Eff This! Meditation will help you let that crap go...with 108 hands-on practices rooted in humor, love, straight talk, and a deep respect for the foundational teachings of Buddhism. If you're ready to throw your hands in the air and yell "Eff This!" you are not alone—and this book can help. You already know that you should meditate, and that meditation will make you happier and healthier. But you're tired and irritated, and every time you try to meditate, your mind races and you can't stop thinking about that jerk at work. If this describes you, then this might be just what you need. This is not a joke, this is real meditation—and really effective practices—for everyday life. This book is a reference for you to come back to again and again. Integrate these tips into your daily life, or pull it off the shelf when you need a boost. Learn to celebrate the small victories in life with a "to do" list. Release yourself from phone addiction with a digital detox plan. Get your body out of stress mode by practicing diaphragmatic breathing. Be transported, and open your heart with a pick-me-up playlist. These are just a few of the simple, practical strategies that will help you find your center. Eff This! Meditation is a Shamatha (mindfulness-awareness) practice rooted in radical compassion for self, and presented in 108 tips, tricks, and ideas. They are all centered on the idea that, as humans, we might not be

"finished," but we are complete. Everything you need to attain enlightenment is already contained within you, and you can use meditation—and these practices—to connect with it. The book offers 108 exercises, organized by the amount of time you have to help you respond to your current effing context. There are a number of ways you can dive into the book: Read it all the way through Flip through and mark what seems interesting Try all of the techniques, one by one Grab the book in a panic and thumb through until something sticks out Open the book to a random page and do that thing However the eff you want; it's your book now

The Daily Stoic - Ryan Holiday 2016-10-18

From the team that brought you *The Obstacle Is the Way* and *Ego Is the Enemy*, a beautiful daily devotional of Stoic meditations—an instant Wall Street Journal and USA Today Bestseller. Why have history's greatest minds—from George Washington to Frederick the Great to Ralph Waldo Emerson, along with today's top performers from Super Bowl-winning football coaches to CEOs and celebrities—embraced the wisdom of the ancient Stoics? Because they realize that the most valuable wisdom is timeless and that philosophy is for living a better life, not a classroom exercise. *The Daily Stoic* offers 366 days of Stoic insights and exercises, featuring all-new translations from the Emperor Marcus Aurelius, the playwright Seneca, or slave-turned-philosopher Epictetus, as well as lesser-known luminaries like Zeno, Cleanthes, and Musonius Rufus. Every day of the year you'll find one of their pithy, powerful quotations, as well as historical anecdotes, provocative commentary, and a helpful glossary of Greek terms. By following these teachings over the course of a year (and, indeed, for years to come) you'll find the serenity, self-knowledge, and resilience you need to live well.

Hypnosis The Myths, The Truth and The Techniques - Dean Amory 2014-11-30

This great practical guide on hypnosis explains in a comprehensive way how to learn and practice hypnosis. Using the proven methods included in this book, will allow you to hypnotize friends and strangers. If you are a professional therapist, they will also enable you to help others with hypnotherapy. As the techniques set forth here lead to real in depth hypnosis, the book is less recommended for performing stage hypnosis. Included are: structure of the hypnosis

proces, ready to use word for word induction and deepening scripts, practical approach to suggestions, anchoring and post hypnotic suggestions, detailed examples of hypnotic language pattern, etc... Hypnosis is a skill, which means that reading about it, is only just the beginning: putting the techniques into practice is a necessary step to get true results. The description of the techniques is conceived in such a way that you can easily create your own flash cards to guide you through this wonderful experience.

The Magic Ice Cream Palace - Jose Colon 2014-02

Bedtime can be difficult for parents and children, but it doesn't have to be. Bedtime has the opportunity to be a bonding experience for children and parents. Paradise Sleep Children's Books help teach children self-regulation skills through story and metaphor. There is also an emphasis in living in the present moment. The stories are whimsical and engaging for the child, while also teaching valuable life lessons to parent and child alike-because a healthy child needs a healthy family. When we encourage

others to encourage others, we make this world a better place.

The Philosophy of Cognitive-Behavioural Therapy (CBT) - Donald Robertson 2018-05-08

Why should modern psychotherapists be interested in philosophy, especially ancient philosophy? Why should philosophers be interested in psychotherapy? There is a sense of mutual attraction between what are today two

thoroughly distinct disciplines. However, arguably it was not always the case that they were distinct. The author takes the view that by reconsidering the generally received wisdom concerning the history of these closely-related subjects, we can learn a great deal about both philosophy and psychotherapy, under which heading he includes potentially solitary pursuits such as "self-help" and "personal development".
