150 ECG Problems E-Book - John Hampton 2013-07-24

This book offers 150 12-lead ECGs and rhythm strips, each with a clinical case history and question. The full ECG is reproduced and a study of it with the case history should be enough to give an answer. On the back the case is examined, with a description of the main features of the ECG along with a clinical interpretation and a "what to do" section. The cases are graded in difficulty. The unique page size allows presentation of all 12-lead ECGs across a single page for clarity. Several of the cases incorporate chest X-rays and coronary angiograms illustrating the appearances that are associated with various cardiac conditions. All the cases are graded in difficulty and are cross-referenced to the new editions of ECG Made Easy and ECG in Practice for further information. For this Fourth Edition over 30 new ECGs have been included, mainly to provide clearer examples, though the book deliberately retains some technically poor records to maintain a 'real-world' perspective.

The House of the Mosque - Kader Abdolah 2011

Iran, 1969. In the house of the mosque, the family of Aqa Jaan has lived for eight centuries. The house teems with life, played out under the watchful eyes of the storks that nest on the minarets above. But this family will experience upheaval unknown to previous generations. For in Iran, political unrest is brewing. The shah is losing his hold on power; the ayatollah incites rebellion from his exile in France; and one day the ayatollah returns. The consequences will be felt in every corner of Aqa Jaan's family.

Electronic Texts in the Humanities - Susan M. Hockey 2000

With word processing and the Internet, computing is much more part and parcel of the everyday life of the humanities scholar, but computers can do much more than assist with writing or Internet searching. This book introduces a range of tools and techniques for manipulating and analysing electronic texts in the humanities. It shows how electronic texts can be used for the literary analysis, linguistic analysis, authorship attribution, and the preparation and publication of electronic scholarly editions. It assesses the ways in which research in corpus and computational linguistics can feed into better electronic tools for humanities research. The tools and techniques discussed in this book will feed into better Internet tools and pave the way for the electronic scholar of the twenty-first century.

Lashipa - Louwrens Hacquebord 2012

This book contains most of the papers presented at the final LASHIPA workshop in St Petersburg, Russia 2-4 November 2009. The workshop was organized to finalize the bilateral LASHIPA Russia-Netherlands project and to discuss possible future cooperation between the participants of the sub-project of the Eurocore Boreas project and the participants of the International Polar Year project Large Scale Historical Exploitation of Polar Areas (LASHIPA). LASHIPA and CEE/Boreas are linked together by different fields of expertise. The common grounds of the two projects are the relation between industrial resource development and science in an international perspective. Knowledge production and knowledge transfer from science to industry as well as between different national communities of resource users are very important in the Arctic as is transfer of legitimacy. All these fields might give opportunities for future research. The different contributions in this book try to answer some of these questions.

The Angel Maker - Stefan Brijs 2008-12-30

A literary page-turner about one man's macabre ambition to create life-and secure immortality The village of Wolfheim is a quiet little place until the geneticist Dr. Victor Hoppe returns after an absence of nearly twenty years. The doctor brings with him his infant children-three identical boys all sharing a disturbing disfigurement. He keeps them hidden away until Charlotte, the woman who is hired to care for them, begins to suspect that the triplets-and the good doctor- aren't quite what they seem. As the villagers become increasingly suspicious, the story of Dr. Hoppe's past begins to unfold, and the shocking secrets that he has been keeping are revealed. A chilling story that explores the ethical limits of science and religion, The Angel Maker is a haunting tale in the tradition of The Strange Case of Dr. Jekyll and Mr. Hyde and Frankenstein. Brought to life by internationally bestselling author Stefan Brijs, this eerie tale promises to get under readers' skin.

Better Work - Monique Kremer 2021-11-13

This Open Access book provides a thorough analysis of the quality of work in the Netherlands, and suggests policy proposals to promote and facilitate good work for more people. New technology, flexibilization and the intensification of work will have significant consequences for all those who will still have jobs in the future, and – much less studied so far – for the quality of their work. Good work is essential for general well-being: for the individual's quality of life, for the economy and for society. Good work for everyone should therefore be seen as an important aspiration for companies, institutions, social partners and governments. An essential read for an international audience of academics in the field of the sociology of work, labor economics and social policy, as well as for policymakers and researchers of trade unions, and representatives of other social movements.

[International Handbook on Geographical Education](#) - Rod Gerber 2013-03-09

I am very pleased to have been asked by Rod Gerber to provide a preface to such a book. Not least because of the twenty-four chapters, eight are written by former students or colleagues with whom I have worked in the past and whom I still meet at conferences on geographical education. It is with a certain pride and joy that I note the progress which has been made in geographical education both in its day to day teaching and in research, in the twenty years following the end of my term of office as Chair of the Commission on Geographical Education of the International Geographical Union (CGEIUG). My successors, Joe Stoltman, Hartwig Haubrich, Rod Gerber and now Lea Houtsonen, have done much and are continuing to work hard, to foster the development of geographical education. This book is proof, if proof were needed, that the

international collaboration in this field, is alive and well, with contributions coming from all the continents (except Antarctica!). It would be a moribund subject that remained unaffected in one way or another by developments on the 'great world stage', as Fairgrieve (1926) would have put it. And, as Rod Gerber shows, the issues of globalisation, of cultural encounters, of differing value systems, of new technologies, of variable economic development and of environmental quality, all feature as topics which influence and are influenced by, geographical education.

Miffy and Melanie - Dick Bruna 2015-01-15

It's such a lovely, sunny day that Miffy has put up her tent in the garden and, for a very special treat, Mummy Bunny lets her play in the paddling pool! It's so much fun. These highly desirable classic books have been updated for a new generation by award-winning poet, Tony Mitton.

Psychometrics - R. Michael Furr 2017-11-17

Using a meaning-based approach that emphasizes the "why" over the "how to," Psychometrics: An Introduction provides thorough coverage of fundamental issues in psychological measurement. Author R. Michael Furr discusses traditional psychometric perspectives and issues including reliability, validity, dimensionality, test bias, and response bias as well as advanced procedures and perspectives including item response theory and generalizability theory. The substantially updated Third Edition includes broader and more in-depth coverage with new references, a glossary summarizing over 200 key terms, and expanded suggested readings consisting of highly relevant papers to enhance the book's overall accessibility, scope, and usability for both instructors and students. Tow-Truck Pluck - Annie M. G. Schmidt 2017-01-10

Pluck has a little red tow truck. He drives it all over town looking for a place to live. Then Dolly the pigeon tells him that the tower of the Pill Building is empty. In the Pill Building, Pluck meets Mr. Penn and Zaza the cockroach. Pluck makes lots more friends and solves all kinds of problems. But the biggest problem is Dove Grove. It used to be a garden with tall trees, but it has been neglected and gone wild. Grown-ups never go there, but the kids from the Pill Building love playing there. But now the Park Superintendent has decided to chop down the trees to make a paved square. Pluck and his friends try to save Dove Grove. But first he has to rescue Longmount from the canal.

Task-based Language Learning and Teaching - Rod Ellis 2003-04-03

This book explores the relationship between research, teaching, and tasks, and seeks to clarify the issues raised by recent work in this field. The book shows how research and task-based teaching can mutually inform each other and illuminate the areas of task-based course design, methodology, and assessment. The author brings an accessible style and broad scope to an area of contemporary importance to both SLA and language pedagogy.

Knowing Knowledge - George Siemens 2006

Why does so much of our society look as it did in the past? Our schools, our government, our religious organizations, our media - while more complex, have maintained their general structure and shape. Classroom structure today, with the exception of a computer or an LCD projector, looks remarkably unchanged: teacher at the front, students in rows. Our business processes are still built on theories and viewpoints that existed over a century ago (with periodic amendments from thinkers like Drucker 2). In essence, we have transferred (not transformed) our physical identity to online spaces and structures.

New Headway Pre-intermediate Culture & Literature Companion - Christopher Barker 2009-06-18

English in Mind Level 1 Student's Book with DVD-ROM - Herbert Puchta 2010-02-25

This second edition updates a course which has proven to be a perfect fit for classes the world over.

Engaging content and a strong focus on grammar and vocabulary combine to make this course a hit with both teachers and students. Popular course features have been refreshed with new content, including the imaginative reading and listening topics, 'Culture in Mind', and 'Everyday English' sections. New for the second edition is a DVD-ROM with the Level 1 Student's Book containing games, extra exercises and videos featuring the photostories' characters as well as a 'Videoke' record-yourself function. There is a full 'Vocabulary bank' at the back of the book which expands upon lexical sets learned in the units.

The Vanishing - Tim Krabbé 1993

When Saskia Ehlvest, a young Dutch girl, disappears from a rest stop along a highway in rural France, her lover, Rex Hofmann, cannot accept her disappearance and embarks on an obsessive search for her that spans years. Movie tie-in. 20,000 first printing.

Fractured Cities - Dirk Kruijt 2013-04-04

As cities sprawl across Latin America, absorbing more and more of its people, crime and violence have become inescapable. From the paramilitary invasion of Medellin in Colombia, the booming wealth of crack dealers in Managua, Nicaragua and police corruption in Mexico City, to the glimmers of hope in Lima, this book provides a dynamic analysis of urban insecurity. Based on new empirical evidence, interviews with local people and historical contextualization, the authors attempt to shed light on the fault-lines which have appeared in Latin American society. Neoliberal economic policy, it is argued, has intensified the gulf between elites, insulated in gated estates monitored by private security firms, and the poor, who are increasingly mistrustful of state-sponsored attempts to impose order on their slums. Rather than the current trend towards government withdrawal, the situation can only be improved by co-operation between communities and police to build new networks of trust. In the end, violence and insecurity are inseparable from social justice and democracy.

Assessment and Teaching of 21st Century Skills - Esther Care 2017-11-07

This book provides a detailed description of research and application outcomes from the Assessment and Teaching of 21st Century Skills project, which explored a framework for understanding the nature of these skills. The major element of this new volume is the presentation of research information from the global assessment of two 21st century skills that are amenable to teaching and learning: collaborative problem solving, and learning in digital networks. The outcomes presented include evidence to support the validity of assessment of 21st century skills and descriptions of consequent pedagogical approaches which can be used both to teach the skills and to use them to enhance key learning goals in secondary education systems. The sections of the volume are connected through a focus on the degree to which innovative assessment tasks measure the constructs of interest. This focus is informed by conceptual and methodological issues associated with affordances of 21st century computer-based assessment. How understanding of the nature of the skills, as derived from these assessments, can guide approaches to the integration of 21st century skills in the classroom, is informed by initiatives adopted by participating countries. The guiding questions in this volume are: "Do the assessment tasks measure the constructs?" and "What are the implications for assessment and teaching in the classroom?" It is the third volume of papers from this project published by Springer.

The Logic of Education (RLE Edu K) - Paul H Hirst 2012-05-16

This book explores the implications for the curriculum, for teaching and for the authority structure of schools and colleges of an analysis of 'education' in which the development of knowledge and understanding is accorded a central position. The book explains what philosophy of education is, and by concentrating on its central concepts, initiates readers into exploring it for themselves. It also serves as a succinct introduction to the growing literature on philosophy of education in the UK.

Contact! - Elsbeth de Leeuw 2017

Psychometrics - R. Michael Furr 2008

By emphasising conceptual development and practical significance over mathematical proofs, this book assists students in appreciating how measurement problems can be addressed and why it is important to address them.

Brazil on the Rise - Larry Rohter 2012-02-28

In this hugely praised narrative, New York Times reporter Larry Rohter takes the reader on a lively trip through Brazil's history, culture, and booming economy. Going beyond the popular stereotypes of samba, supermodels, and soccer, he shows us a stunning and varied landscape--from breathtaking tropical beaches to the lush and dangerous Amazon rainforest--and how a complex and vibrant people defy definition. He charts Brazil's amazing jump from a debtor nation to one of the world's fastest growing economies, unravels the myth of Brazil's sexually charged culture, and portrays in vivid color the underbelly of impoverished favelas. With Brazil leading the charge of the Latin American decade, this critically acclaimed history is the authoritative guide to understanding its meteoric rise.

The Multilingual Edge of Education - Piet Van Avermaet 2018-01-18

This book highlights the need to develop new educational perspectives in which multilingualism is valorised and strategically used in settings and contexts of instruction and learning. Situated in the current educational debate about multilingualism and ethno-linguistic minorities, chapter authors examine the polarised response to heightened linguistic diversity and how the debate is very much premised on binary views of monolingualism and multi- or bilingualism. Contributors argue that the diverse linguistic backgrounds of immigrant and minority students should be considered an asset, instead of being regarded as a barrier to teaching and learning. From its title through to its conclusion, this book underlines the current perspective of multilingualism as possessing cutting edge potential for transforming diverse classrooms into more inhabitable, more equitable and more efficiently organised spaces for learning. This book will be of interest to scholars and researchers in educational linguistics, applied linguistics, sociolinguistics, anthropological linguistics, pedagogics, educational studies, and educational anthropology.
