An African Trilogy - Peter Matthiessen 2012-05-31

During the 1970s and 1980s, Peter Matthiessen took part in a number of expeditions to Africa, witnessing first-hand the continent's many and diverse peoples and wildlife. The fruits of these journeys are three of the most impressive essays on the natural world of the late twentieth century. *The Tree where Man Was Born* documents wild landscapes, peoples and animals, observed in a series of journeys in East Africa, from the Sudan, south through Uganda, Kenya and Tanzania, exploring the Serengeti, the Maasai Mara, the Ngorongoro crater and the archaeological sites of the Rift Valley. *African Silences* recounts two expeditions made to West and Central Africa, including Zaire (as it then was), Gabon and the Central African Republic. *Sand Rivers* describes the Selous game reserve in Southern Tanzania, one of the largest, but least-known refuges for animals left on earth, and provides an unforgettable portrait of this area and the fierce, lonely men who created it. These three classic works represent Matthiessen the naturalist at his finest; written an all-encompassing curiosity and knowledge that brings alive the people, places and wildlife he encounters, and updated with a new introduction by the author.

A Guide for Desert and Dryland Restoration - David A. Bainbridge 2012-09-26

Dryland degradation and desertification now affect almost a billion people around the world. Tragically, the biological resources and productivity of millions of acres of land are lost to desertification each year because people remain unaware of strategies and techniques that could improve yields, reduce risk, and begin healing the world's deserts. *A Guide for Desert and Dryland Restoration* is the first book to offer practical, field-tested solutions to this critical problem. Author David Bainbridge has spent more than 25 years actively involved in restoring lands across the American Southwest. *A Guide for Desert and Dryland Restoration* presents the results of his years of fieldwork, as well as research and experience from scientists and practitioners around the globe. The book discusses the ecology of desert plants, explores the causes of desertification and land abuse, and outlines the processes and procedures needed to evaluate, plan, implement, and monitor desert restoration projects. It sets forth economical and practical field-tested solutions for understanding site characteristics, selecting and growing plants, and ensuring that they survive with a minimal amount of water and care. Each chapter represents a guide to a critical topic for environmental restoration; extensive photographs, diagrams and drawings give detailed information for immediate application, and additional resources are included in appendixes. *A Guide for Desert and Dryland Restoration* is the first comprehensive book focused on restoring arid regions, and clearly demonstrates that arid lands can be successfully rehabilitated. In addition to restorationists, the book will be an invaluable resource for anyone working in arid lands, including farmers, ranchers, gardeners, landscapers, outdoor recreation professionals, and activists.

Anna Freud, Melanie Klein, and the Psychoanalysis of Children and Adolescents - Alex Holder 2018-03-26

The central theme of this book is concerned with the controversies on technique between Anna Freud and Melanie Klein in the 1920s and 1930s, and with a clear differentiation between child analysis proper and analytical child psychotherapy. Alex Holder takes into account the historic background in which child psychoanalysis developed, especially World War II and the Nazi regime in Germany. The author also looks at the way child psychoanalysis developed in specific institutions, such as the Hampstead Child Therapy Course in London, and in specific areas, such as the spread of child analysis in the US. The concluding chapter is on the importance of knowledge of child analysis among psychoanalysts working with adults. The differences in the theories of the two "greats" in child analysis, Anna Freud and Melanie Klein, are examined one by one, including such concepts as the role of transference, the Oedipus complex and the superego.

American Pickers Guide to Picking - Libby Callaway 2011-09-13

A true adventure story and the go-to guide for "picking" American treasures from anyone's backyard, straight from the stars of History's American Pickers In these pages, professional treasure hunters Mike Wolfe and Frank Fritz chronicle their road trips across the American countryside in search of "rusty gold" to buy and sell among the picking world's one-of-a-kind characters. Whether you are a fan of the show or just like finding hidden riches, you will love seeing what Wolfe and Fritz dig up and enjoy meeting the devoted collectors, extreme stockpilers, and elite dealers who they encounter along the way. Wolfe and Fritz do not deal in fine antiques. Their secondhand treasures are of the down-and-dirty and sometimes even bizarre variety, from old bicycles and vintage tools, to sun-bleached cars and handmade furniture, retired carnival games and unusual taxidermy. Assisted by Danielle Colby, who helps out at Antique Archaeology, Wolfe and Fritz buy on the cheap and then sell to dealers, art directors, interior designers, or anyone looking for a little bit of authentic Americana. The three now share their secrets to finding hidden gems, offering helpful hints that will show what average Americans can do to find the treasures that await them. From American Pickers Guide to Picking: Junk is Beautiful When we knock on a door, 90 percent of the time the things we find are junk. But we don't care about the odds; a picker never turns down an opportunity, no matter where it is. We've picked pickup trucks. We've picked flat beds. We've picked dumpsters. We even picked a Mercury Sable. We're looking for the unusual, the impossible, the funky, the different, the bizarre-things we have never seen before. And we'll go anywhere we have to go to find it. No location is off-limits to a hard-core picker. And there's plenty of things to be found at antique stores, thrift and consignment shops, flea markets, estate sales, and swap meets, and a lot of the tips in this book apply to finding treasures at these joints. But that's not really the kind of picking we do anymore. We look outside the box to find our junk-a word we use almost like a term of endearment: to us: junk is beautiful.
