Reflections of Dreams - Luis F. Jacome, Ph.d. 2014-08-16

Reflections of Dreams takes the main character, Sal, on a psychological journey through time. After he had long transitioned from believing in God and dreams to believing in nature and reality, something started to stir his unconscious again. The more skeptic he became about his dreams and blocked any association regarding them, the more they unfolded before his eyes. While some were rather pleasant to live with, others manifested themselves in ways that were both painful and frightening. On his quest for his real dreams, in the midst of a chaotic world, other events began to unravel in unexpected, shocking ways.

The Making of Heritage - Camila Del Marmol 2014-11-20

This volume explores the process of heritage making and its relation to the production of touristic places, examining several case studies around the world. Most existing literature on heritage and tourism centers either on its managerial aspects, the tourist experience, or issues related to inequality and identity politics. This volume instead establishes theoretical links between analyses of heritage and the production and reproduction of places in the context of the global tourist trade. The approach adopted here is to explore the production of heritage as a complex process shaped by local and global discourses that can have a deep impact on several policies and legislations. Heritage itself has now become not only a global discourse, but

also a global practice, which may eventually lead to the use of heritage as a field for hegemony. From these perspectives, heritage making may be incorporated in the world economy, mainly through the global tourism trade. The chapters in this book stress the need for identifying the intrinsic political implications of these processes, relocating their study in political, economic and social settings. Combined with a diversified set of theoretical approaches and research methods, guided by a common thematic rationale, The Making of Heritage is at the forefront of current debates about heritage.

Wayward - Chris Burkard 2022-02-01

Breathtaking photographs and deeply personal stories from a leading surfing and nature photographer, conservation advocate, and social media force Wayward is a collection of striking photographs and the revealing personal stories behind them by one of the leading surf, nature, and adventure photographers of our time. At remote beaches and locales in places like Russia, Norway, Iceland, and the Aleutian Islands, Chris Burkard succumbed to hypothermia, destroyed thousands of dollars' worth of camera gear, and spent a few nights in jail. But in the process, he captured amazing and iconic images that have defined his life's work. And while millions have seen his photographs in magazines, marketing campaigns for Patagonia, Sony, and others, and via his social media, Burkard has never given a full account of these journeys--until now. With never-before-seen images and the stories behind them, Burkard crafts an original narrative that combines the page-turning drama of a great explorer's adventure story and the immediacy and power of unforgettable photographs. Chronicling both the failures and the successes he has experienced in building a career, Burkard shares an infectious passion for photography, surfing, and chasing dreams in some of the world's most awe-inspiring places.

Dangerous Surrender - Esi Abbam Elliot 2006

Tourism and Responsibility - Martin Mowforth 2007-10-18

This book discusses the responsibility, or otherwise, of tourism activities in Latin America and the Caribbean. It considers issues such as the reduction of poverty through tourism and the conflict between increasing volumes of air travel spent in our continuing search for pleasure and the resulting contribution to global warming. The authors believe that tourism can only be adequately assessed through a consideration of how it fits into the structure of power. It is also argued that tourism cannot be analyzed without a consideration of its impacts on and links with development. This relationship between tourism, responsibility, power and development is explored in chapters covering both the macro and the micro level of responsibility. The authors look at methods of practising tourism responsibly or irresponsibly at the personal, company, national and international levels. The questions and dilemmas of "placing" responsibility in the tourism industry are examined throughout. Widely illustrating all these themes and issues with examples and case studies from throughout the sub-continent, this book will be of importance to students and academics and to the work of practitioners of development and tourism-related projects run by both governmental and non-governmental aid and development agencies.

Deconstructing Eurocentric Tourism and Heritage Narratives in Mexican American Communities - Frank G. Perez 2019-10-24

This book attempts to dismantle the unfounded Eurocentric view of US-born and immigrant Mexican peoples, that groups together the identities of Latinx, Chicax, and other indigenous peoples of the Southwest into Hispanics whose contributions to the cultural, historical, and social development of the Southwest are marginalized or made non-existent. The narrative and performative legacies that tourism and fantasy heritage produce are promulgated and consumed by both Latinx and non-Latinx peoples and cultures. This book endeavors to expose these productions through analysis of on-the-ground resistance in the service and spirit of intercultural dialogue and change. This book will offer a precise set of recommendations for breaking away from these practices and thus forming new, veritable identities. With a strongly heritage-oriented discourse, this book on deconstructing Eurocentric representation of Mexican people and their culture will appeal to academics and scholars of heritage tourism, Chicano studies, Southwest studies and Native American studies courses.

Pilgrim's Wilderness - Tom Kizzia 2014-07-15

Into the Wild meets Helter Skelter in this riveting true story of a modern-day homesteading family in the deepest reaches of the Alaskan wilderness—and of the chilling secrets of its maniacal, spellbinding patriarch. When Papa Pilgrim, his wife, and their fifteen children appeared in the Alaska frontier outpost of McCarthy, their new neighbors saw them as a shining example of the homespun Christian ideal. But behind the family's proud piety and beautiful old-timey music lay Pilgrim's dark past: his strange connection to the Kennedy assassination and a trail of chaos and anguish that followed him from Dallas and New Mexico. Pilgrim soon sparked a tense confrontation with the National Park Service fiercely dividing the community over where a citizen's rights end and the government's power begins. As the battle grew more intense, the turmoil in his brood made it increasingly difficult to tell whether his children were messianic followers or hostages in desperate need of rescue. In this powerful piece of Americana, written with uncommon grace and high drama, veteran Alaska journalist, Tom Kizzia uses his unparalleled access to capture an era-defining clash between environmentalists and pioneers ignited by a mesmerizing sociopath who held a town and a family captive.

In Search of the Rain Forest - Candace Slater 2004-03-01

The essays collected here offer important new reflections on the multiple images of and rhetoric surrounding the rain forest. The slogan "Save the Rain Forest!"—emblazoned on glossy posters of tall trees wreathed in vines and studded with monkeys and parrots—promotes the popular image of a marvelously wild and vulnerable rain forest. Although representations like these have fueled laudable rescue efforts, in many ways they have done more harm than good, as these essays show. Such icons tend to conceal both the biological variety of rain forests and the diversity of their human inhabitants. They also frequently obscure the specific local and global interactions that are as much a part of today's rain forests as are the array of plants and animals. In attending to these complexities, this volume focuses on specific portrayals of rain forests and the consequences of these characterizations for both forest inhabitants and outsiders. From diverse disciplines—history, archaeology, sociology, literature, law, and cultural anthropology—the contributors provide case studies from Latin America, Asia, and Africa. They point the way toward a search for a rain forest that is both a natural entity and a social history, an inhabited place and a shifting set of ideas. The essayists demonstrate how the single image of a wild and yet fragile forest became fixed in the popular mind in the late twentieth century, thereby influencing the policies of corporations, environmental groups, and governments. Such simplistic conceptions, In Search of the Rain Forest shows, might lead companies to tout their "green" technologies even as they try to downplay the dissenting voices of native populations. Or they might cause a government to create a tiger reserve that displaces peaceful peasants while opening the doors to poachers and bandits. By encouraging a nuanced understanding of distinctive,

constantly evolving forests with different social and natural histories, this volume provides an important impetus for protection efforts that take into account the rain forest in all of its complexity. Mexico Vacation Handbook: The Mexico Travel Guide - Jerry Lester 2015-08-26

There aren't many cities in the entire world that are larger than Mexico City, Mexico. Nicknamed, the City of Palaces and with a population of about 20 million, Mexico City is a huge, cosmopolitan city that sprawls over almost 3,700 square miles. It is located in a valley on top of a high plateau at about 7,350 feet above sea level. The place where the city rests was once Lake Texcoco. It seems to be a city of extremes and a dynamic place to visit. Most vacationers to Mexico City will be fascinated with the history of the city itself and of the circumstances in which it came to be. The Aztecs founded Mexico City in the year 1325 on a small island in the middle of Lake Texcoco. In order for it to continue to grow, the small island had to be enlarged artificially. The city came under siege by the Spaniards 200 years later and was almost completely destroyed. The Spaniards then rebuilt the city according to their designs, which is mostly what you see today in the old section of the town. GRAB A COPY TODAY!

With a wandering spirit mellowed by an analytic eye, American diplomat and writer JOHN LLOYD STEPHENS (1805-1852) introduced Westerners to the mysteries of the Yucatan in this contemporary bestseller, riveting armchair explorers with his lyrical account of visits to 44 Maya sites, including the then-unknown Chichen Itza and Uxmal.
